

# interChange Provider Important Message

## Implementation of Electronic Messaging for Labelers/Drug Manufacturers

### *Electronic Messaging - applicable to all Labelers/Drug Manufacturers*

DXC Technology is pleased to announce that effective June 26, 2018, Drug manufacturers by labeler code have been automatically subscribed to the Connecticut Medical Assistance Program's electronic messaging system (also known as emessaging). All labelers/are required to have email addresses on file when creating their [www.ctdssmap.com](http://www.ctdssmap.com) Secure Web portal accounts. It is those email addresses, as well as any additional invoice email addresses that were supplied to DXC Technology when you joined the drug rebate program, that have been auto subscribed. It is very important that at least one email address for every labeler remain auto subscribed as important drug rebate program information will be distributed through emessaging. An additional, unlimited number of email addresses may be added at any time by the labeler/drug manufacturer's staff.

Please note that, if you were already subscribed to emessaging to receive any other notifications, the Labeler/Drug Manufacturer topic has been added to your subscription list.

To validate your auto subscription, go to [www.ctdssmap.com](http://www.ctdssmap.com), then select Provider > E-mail Subscription and enter your email address in the Existing Subscribers section of the E-mail subscription panel. Your current list of subscriptions will be displayed, at which point you can modify the subscription list.

A detailed user guide, including procedures to add additional email addresses, will be available on the E-mail Subscription panel by selecting the link that states "[Click here](#)".

### *Questions*

Please contact the Drug Rebate team at [CTdrugrebate@dxc.com](mailto:CTdrugrebate@dxc.com) with any questions.
