## Welcome to the Connecticut Medical Assistance Program Electronic Visit Verification Implementation Important Message

(Last updated on 1/24/18) Please note: Revised data will appear in red.

### EVV Implementation Overview

The Department of Social Services (DSS), their MMIS contractor DXC Technology, and Sandata Technologies, Inc. have successfully implemented Electronic Visit Verification (EVV) in the CT Medical Assistance Program (CMAP). The benefit of EVV is to reduce burdens by eliminating the use of manual time sheets, facilitate real-time communication about changes in client health and other status between clients, caregivers and care managers, ensure that the clients receive the services they are authorized to receive and that DSS is billed for only those services provided.

Throughout the implementation of EVV, many enhancements and improvements to the EVV system were made based on provider feedback. Among the enhancements and improvements made were the increase of time tolerance to reduce check-in and check-out exceptions, the ability to schedule visits without a prior authorization, the addition of additional optional service codes, and the ability to capture as many client service locations as needed. DSS continues to welcome comments and feedback from the provider community to improve the EVV program. DSS has been, and will continue to be, transparent with its rationales, intent and dissemination of information in and around this program.

This Important Message will provide up to date information on the EVV program. Providers are encouraged to visit this site often to obtain the most current information published to the provider community.

# interChange Provider Important Message

## Fully Implemented EVV for Non-medical and Home Health Services

The Department of Social Services successfully implemented the Electronic Visit Verification (EVV) program for both non-medical service agencies and Home Health agencies. Non-medical service agencies implemented EVV on January 1, 2017 and Home Health agencies implemented EVV on April 3, 2017. Providers who service Acquired Brain Injury (ABI), Connecticut Home Care (CHC) and Personal Care Services (PCA) waiver clients **must** use EVV when providing EVV mandated services to ABI, CHC and PCA Waiver clients and use EVV to export claims for adjudication. For a list of EVV mandated and optional services please see the "EVV Service Code Listing" document found under the "General Information and Questions" subheading below.

Claims for EVV mandated services not submitted via the EVV system for services performed after the implementation dates and forward will deny with **Explanation of Benefits (EOB) code 0630 - "Claim Must Be Submitted Via EVV System"**. As a result, providers will not be reimbursed for these services until they are submitted via the EVV system. Details regarding an alternate claims solution, allowing providers to bill as they did previously to the EVV implementation, will be published at a later date.

*The payroll function is not a part of the CT DSS EVV program and no additional payroll modifications will be made to the Santrax system.* Agencies can purchase a payroll service from Sandata Technologies if they so desire. To do so please contact Sal Sparacino ([ssparacino@sandata.com](mailto:ssparacino@sandata.com)) at Sandata to get additional information. Please Note - Use of a payroll service may incur fees from that payroll vendor that are not covered in the implementation of the EVV program and are not paid for by DSS.

## At Your Fingertips

“At Your Fingertips” is a bi-monthly tip sheet designed to help providers navigate EVV by answering common questions and providing assistance for resolving common issues encountered by providers in their use of the EVV system. The tip topics are generated by questions submitted to Sandata Customer Care, to the EVV email box [ctevv@dx.com](mailto:ctevv@dx.com), or in communications to DSS for assistance. Please submit suggestions for future “At Your Fingertips” tips sheets to the [ctevv@dx.com](mailto:ctevv@dx.com) email box.

Tips are organized according to the year published below. To see tips categorized by category, please click [here](#).

## 2017

<u>Tip</u>	<u>Title</u>	<u>Date Published</u>
<u>1</u>	<u>Know Your Resources</u>	<u>9/5/17</u>

## IMPORTANT NOTICE REGARDING WHO TO CONTACT WITH QUESTIONS/ISSUES:

Providers may have questions about who to contact regarding EVV related issues. If after reviewing the information below you are unsure who to contact for assistance, please send an e-mail to [ctevv@dxc.com](mailto:ctevv@dxc.com). You are also encouraged to send an e-mail the [ctevv@dxc.com](mailto:ctevv@dxc.com) mailbox if you feel you need additional support resolving your issue. Please be sure to include your Sandata ticket number if applicable.

If you are missing a client from your Santrax system, and have verified that the client is eligible on their waiver benefit plan and has an approved prior authorization (PA), or have clients that you are unfamiliar with, please send a secure email to [ctevv@dxc.com](mailto:ctevv@dxc.com).

If a PA is present on the [www.ctdssmap.com](http://www.ctdssmap.com) portal but is not present in the Santrax system, please send an email to [ctevv@dxc.com](mailto:ctevv@dxc.com) with the PA number.

If you are experiencing issues with the Santrax system, and its functionality, please contact Sandata Customer Care. They can be reached at 1-855-399-8050 or by email at [ctcustomer@sandata.com](mailto:ctcustomer@sandata.com).

**Important: Do not email client identifying data unless you encrypt your e-mail.**

**IMPORTANT NOTICE REGARDING STAFF SETUP IN SANTRAX SYSTEM: DSS requires only the last 5 digits of the staff member's SSN. Please use the example below as a reference when entering staff SSN.**

Example:

Staff SSN is 123-45-6789

Providers will enter into Santrax: 000-05-6789

In the unlikely situation that a provider agency has multiple staff members that share the same last 5-digits of their social security numbers, the provider would enter the second staff member's SSN and increment the first digit of from a 0 to a 1.

Example:

Staff Member #1 SSN is: 123-45-6789

Provider will enter into Santrax: 000-05-6789

Staff Member #2 SSN is: 987-65-6789

*(note- the last 5 digits are the same as Staff Member #1)*

Provider will enter into Santrax: 100-05-6789

# interChange Provider Important Message

**IMPORTANT NOTICE REGARDING EVV RESOURCES:** DXC Technology and Sandata have developed a Frequently Asked Questions (FAQ) document which provides answers to many questions received since the initial provider workshop was held in November 2015. Links to the FAQ and workshop presentations are located below. This document is updated frequently and has the most up-to-date information.

Located in the “EVV Service Code Listing” link below are a final list of services which have been implemented in EVV. This list includes both mandated and optional services. The list of mandated services requires providers to utilize EVV. The list of optional services are not mandated, however, DSS encourages providers to use EVV for these services due to the many benefits it provides.

**IMPORTANT NOTICE REGARDING PRIOR AUTHORIZATION ALERTS:** Providers using the Santrax system now receive an alert notifying them that a Prior Authorization (PA) has been uploaded and/or modified in the Santrax system. These alerts are a one-time popup that appear in the affected client’s record in the “Authorizations” tab, but can be viewed, as needed, in the “Changed Authorization Report” found in the Reports section of the Santrax system. The “Changed Authorization Report” provides a complete list of authorizations by date range.

### Training Publications and Videos:

All providers must complete the mandatory EVV training to request and receive their Welcome Kit. Please follow the directions below to enroll in the Learning Management System (LMS). LMS is a web-based learning system that will provide the training and documentation needed to request and receive your Welcome Kit. Additional training videos are also available for your convenience.

## Santrax App Messaging

**Requesting a Phone Number Change Rule Update (Posted: 4/20/17):** Effective immediately, all updates to the client's home telephone number must be requested by the client or client representative by contacting the DSS Benefit Center at 1-855-626-6632. Please do not contact the Access Agency for assistance in changing the Home telephone number. Corrections to a client's address should continue to be communicated to the Access Agency responsible for managing the client's care plan. The Access Agency will request the necessary address corrections from DSS.

**ATTN: Home Health Providers - Skilled Service Duration (Posted 4/21/17):** In an effort to reduce duration exceptions, some Home Health providers have been scheduling visits closer to the expected visit duration. Please note: **visits should not be scheduled for less than 15 minutes in duration.** Visits scheduled for less than 15 minutes in duration will receive a duration warning in the Santrax system.

**Client Searches in MVV (Posted 10/17/17):** Did you know that the search for a client by chart ID is no longer case specific?

You may also search for a client by their 4-digit Santrax ID. This ID is found on either the Schedules by Staff Report or the Client Address Report.

**Now Available: TPL Instruction Videos (Posted 11/13/17):** Need a TPL refresher? New videos have been added to the (Learning Management Software) LMS on TPL processing. The video topics are:

- A General Overview of TPL
- How to Manually Add a Payer
- Adding Payers to Client Charts/Re-rank your payers
- Enter Medicare Pre-Denials.

You can access these videos using the LMS link at:  
<https://www.sandatalearn.com/#/login>

You will need to enter your LMS login and password to access the training videos.

**New Option in FVV Device Request - Lost (Posted 11/14/17):** A new option has been added to the FVV Device Request form. Providers will now be able to use the "Lost" option to report an FVV device placed in the home that has been

# interChange Provider Important Message

misplaced and has no reasonable expectation of retrieval. This option can be used to request a replacement FVV device, if one is necessary. For more information, please refer to the Electronic Visit Verification Implementation Important Message on the DSS Home page.

**MVV App Update (Posted 1/2/18):** Sandata has released version 4.4.3 of the iOS Mobile Visit Verification (MVV) App which will be available in the Apple Play Store after Apple's review and approval process of the app is complete (ETA: The week of January 12, 2018). This upgrade repairs an issue with incorrect visit times. We strongly recommend that your field staff update the app as soon as it becomes available. We apologize for any inconvenience this has caused.
