RE: Changes to the Obstetric (OBS) and Facility Obstetric (FTO) Rate Types

Effective for dates of service retroactive to July 1, 2015 and forward, the Department of Social Services (DSS) is increasing the rate for physician surgical and office and outpatient services reimbursed under the obstetric (OBS) and facility obstetric (FTO) rate types to 145% of the 2007 Medicare Physician Fee Schedule. Also effective for dates of service retroactive to July 1, 2015 and forward, the Department is re-establishing an OBS rate type for obstetric radiology services when performed as part of the obstetrical supervision of a **high risk pregnancy**. The OBS rate for obstetric radiology services is set at 110% of the 2007 Medicare Physician Fee Schedule.

This policy transmittal supersedes portions of PB 2015-18 and is consistent with the approved biennial budget for State Fiscal Years 2016 and 2017.

OBS Surgical and Office and Outpatient Services Billing Criteria

The rate methodology establishing an OBS and FTO rate at 145% of the 2007 Medicare Fee Schedule applies to services reimbursed under the OBS and FTO rate types on the Physician Surgical and Physician Office and Outpatient Fee Schedules.

Providers are reminded that, in order for a surgical or office and outpatient service to qualify for reimbursement under the OBS or FTO rate type, all of the following criteria must be met:

- The billing provider must be a physician, physician group practice, APRN, or APRN group, with a specialty in family medicine or obstetrics and gynecology, or a CNM or CNM group and has met the enrollment requirements;
- The procedure code must have an OBS or FTO rate type on the applicable physician surgical or office and outpatient fee schedule; and
- The client must be female and the claim must indicate an obstetric diagnosis code as the **primary** header diagnosis code for the claim.

For dates of service July 1, 2015 through September 30, 2015, claims must be submitted with the appropriate

ICD- 9 diagnosis code (630-634.92, 640-676.92, V22-V24.2, V26.3, and V28-V28.9).

For dates of service October 1, 2015 and forward, claims must be submitted with the applicable ICD-10 diagnosis code. Please refer to **Table 9** under the Fee Schedule Instructions for the applicable ICD-10 diagnosis codes for the OBS rate type.

Providers do not need to take any action in order to receive the increased OBS rates. HP will automatically adjust and pay the increased rate for physician surgical and office and outpatient OBS services retroactive to July 1, 2015.

Obstetric Radiology Services for High Risk Pregnancy

The obstetric radiology services for which DSS is re-establishing an OBS rate type for high risk pregnancy are listed below.

Obstetrical Radiology Services

Ultrasound	Fetal biophysical, non-stress test
76801-76802	76818
76805	
76810-76812	
76815	
76817	

The Department is identifying high risk pregnancies based on specific diagnosis codes. Please see attached for the list of Obstetric High Risk diagnosis codes. This list is also located under Tables 13a and 13b of the Fee Schedule Instructions. Please note the following guidance for specific diagnosis codes.

Preterm labor is defined as labor starting before 37 weeks of pregnancy.

History of poor obstetric or reproductive health is defined as a history of stillbirth or neonatal death.

History of abortion means that the client has had more than one abortion, or an abortion within three months of the current pregnancy.

The current pregnancy with insufficient prenatal care where insufficient prenatal is identified as inadequate care on the attached Adequacy of Prenatal Care: Kessner Index.

The detail on the claim for the obstetric radiology service must include the appropriate diagnosis code indicating at least one high risk diagnosis code listed on the attachment to fulfill one of the criteria required for reimbursement under the OBS rate type. This list will also be located under the fee schedule instructions at a future date.

Billing Criteria for Obstetric Radiology Services for High Risk Pregnancy

All of the following billing criteria are required in order for an obstetric radiology service to qualify for reimbursement under the OBS rate type:

- The billing provider must be a physician, physician group practice, APRN, or APRN group, with a specialty in family medicine or obstetrics and gynecology, or a CNM or CMN group and has met the enrollment requirements;
- The procedure code must have an OBS rate type on the physician radiology fee schedule; and
- The client must be female and the detail primary diagnosis code must indicate a high-risk obstetric diagnosis code in order for the detail to reimburse at the OBS rate type. Please refer to the attached list of applicable ICD-9 and ICD-10 OBS Radiology -High Risk Pregnancy diagnosis codes, or Tables 13a and 13b on the Fee Schedule Instructions.

For dates of service July 1, 2015 through September 30, 2015, claims must be submitted with the appropriate ICD-9 code. For dates of service on and after October 1, 2015, claims must be submitted with the appropriate ICD-10 code.

If **all** of the above criteria for high risk OB radiology services are not met, the detail for the obstetric radiology service will be reimbursed under the PRA rate type. **Please note, previously paid claims for obstetric radiology services for high risk pregnancy will be recouped by HP and adjusted through a scheduled ID and reprocess at a future date.**
