ABI Waiver Renewal Procedure Code Changes

The State of Connecticut Department of Social Services (DSS) has renewed the Home and Community Based Services (HCBS) Acquired Brain Injury II (ABI-II) Waiver effective December 1, 2019.

As a result of the ABI II Waiver renewal, the following procedure code changes have been made to the fee schedules:

1564P, Specialized Medical Equipment has been end-dated effective November 30, 2019 and removed from the ABI Fiduciary and Service Provider fee schedules.

1397Z, Assistive Technology has been added to the ABI Fiduciary fee schedule, effective December 1, 2019. This procedure code requires Prior Authorization from DSS for an up to a maximum amount, over a three-year period, of \$15,000.

The ABI Procedure Code Crosswalk has also been updated to reflect these changes.
