

# interChange Provider Important Message

## **Attention: Outpatient Hospitals - CMAP Addendum B Claims Reprocessing**

As previously communicated, an updated PDF and Excel version of Connecticut Medical Assistance Program (CMAP) Addendum B V23.0 has been approved by the Department of Social Services (DSS) and has been added to the Hospital Modernization page on the [www.ctdssmap.com](http://www.ctdssmap.com) Web site. These changes are effective for dates of service January 1, 2022 and forward.

Any “procedure codes that were “NEW”, changed or deleted were updated on February 9, 2022. The purpose of this important message is to notify hospitals that any claims with new procedure codes will be identified and reprocessed and will appear on your February 23, 2022 Remittance Advice (RA) with an Internal Control Number (ICN) beginning with region code 61 or 27.
