Note: Updates for new, changed or deleted procedures codes with an effective date of October 1, 2021 will be postponed to October 28, 2021.

An updated PDF and Excel version of Connecticut Medical Assistance Program (CMAP) Addendum B V22.3 has been approved by the Department of Social Services (DSS) and has been added to the Hospital Modernization page on the www.ctdssmap.com Web site. These changes are effective for dates of service October 1, 2021 and forward.

Payment rate changes for procedure codes assigned a status indicator G or K were updated and loaded into the system prior to October 1, 2021. Any claims that were submitted for dates of service October 1, 2021 and forward that had a status indicator of G or K were processed at the correct payment rate.

Any procedure code that is “NEW”, changed or deleted with an effective date of October 1, 2021 will be updated on October 28, 2021.

The changes can be identified by the following indicators:

- “G or K” - A change has been made to the payment rate (status indicator G or K).
- “New” - The procedure code was added by CMS.
- “X” - A change has been made to the procedure code or status indicator.

The October changes have been posted to the CMAP Addendum B Changes document on the Hospital Modernization page under “CMAP Addendum B Changes and Historical Versions”.

Older versions of CMAP Addendum B can be found under the Hospital Modernization page under “CMAP Addendum B Changes and Historical Versions.”
