

interChange Provider Important Message

Attention: Federally Qualified Health Center (FQHC) Providers **FQHC Medicaid Supplemental Payment and Recoupment of** **Prior State-Only Interim Advanced Payment**

In the June 21, 2024 claims financial cycle, the Department of Social Services (DSS) is issuing a one-time Medicaid supplemental payment out of a total pool of \$32,000,000, distributed in equal amounts of \$1,882,352.94 to each of Connecticut's seventeen in-state federally qualified health centers (FQHCs).

This Medicaid supplemental payment replaces the interim payment that was expedited using the advance payment process with state-only funds in August 2023 in the same amounts. DSS will then immediately recoup the interim payment that was made using state-only funds. Recouping the previous state-only payment and replacing it with the Medicaid payment is necessary to enable the state to claim federal financial participation (FFP) on these payments. After the recoupment is completed, there will be no change to the total payments made to each FQHC. These transactions will be seen on the June 25, 2024 Remittance Advice in the Financial Transaction section.
