Extension of postpartum coverage for eligible HUSKY Health members

Postpartum coverage for eligible HUSKY A members will be extended from two months to a full 12 months, effective April 1, 2022. HUSKY B members will also be eligible for 12 months of postpartum coverage (excluding members in the new HUSKY B Prenatal group). While we update our systems, members who deliver or have a due date prior to April 23, 2022, will initially receive a two-month postpartum extension under the pregnancy medical coverage group. Members will receive a separate notice confirming the additional coverage at the end of April 2022.

During the extended postpartum period, members will have access to full Medicaid or CHIP coverage, not simply maternity or pregnancy-related services.

A provider bulletin will be forthcoming detailing more information. Please continue to monitor the Connecticut Medical Assistance Program (CMAP) Web site at www.ctdssmap.com for more information.
