*All red text is new for 2/13/26

CMAP Addendum B January 2026

The January version of CMAP Addendum B is under development and will be posted to the Hospital Modernization page on the www.ctdssmap.com Web site once finalized. There is a tentative date of February 24, 2026 for the posting of the January CMAP Addendum B.

The Department of Social Services (DSS) will be updating the Connecticut Medical Assistance Program (CMAP) Addendum B to incorporate the 2026 Healthcare Common Procedure Coding System (HCPCS) changes (additions, deletions, and description changes) for dates of service January 1, 2026 and forward to remain compliant with the Health Insurance Portability and Accountability Act (HIPAA).

An updated PDF and Excel version of Connecticut Medical Assistance Program (CMAP) Addendum B V27.0 will be posted to the Hospital Modernization page on the www.ctdssmap.com Web site.

APC Payment rate changes for procedure codes assigned a status indicator G or K or K1 were loaded into the system with an effective date of January 1, 2026 on 1/31/2026. Claims submitted before the rate change will be mass adjusted in the 2nd cycle of February.

The changes can be identified by the following indicators:

- “G or K” - A change has been made to the payment rate (status indicator G or K or K1).
- “New” - The procedure code was added by CMS.
- “X” - A change has been made to the procedure code or status indicator.

Any procedure code that is “NEW”, changed or deleted will be updated with the publishing of the 2026 January CMAP Addendum B. With the tentative publishing date of February 24, 2026, claims with the new procedure codes that are identified and reprocessed will appear on the hospital’s March 10, 2026 Remittance Advice with Internal Control Numbers (ICNs) beginning with region code 61 or 27.

Older versions of CMAP Addendum B can be found under the Hospital Modernization page under “CMAP Addendum B Changes and Historical Versions.”

Community Health Network of Connecticut Inc. (CHNCT) Inpatient Elective Authorizations

Inpatient elective authorizations are authorizations that are submitted for a planned inpatient admission. The provider requests authorization using CPT codes and a single date of service based on the planned date of admission. The inpatient authorization is created with an authorized start and end date matching the hospital's planned admission date for the inpatient stay. If the admission date changes, it is the hospital's responsibility to contact CHNCT with

the new admit date. CHNCT will update the authorization and send the corrected prior authorization to Gainwell for claim processing. Failure to contact CHNCT and update the authorization will cause the hospital's inpatient claim to be denied.
