HPMyRoom Virtual Classroom Training

Hewlett Packard Enterprise utilizes internet virtual classrooms that allow class participants to attend a workshop without leaving their office. Participants will be provided a key to an internet classroom to attend the **Hospital Modernization Workshop**. We have replaced HP Virtual Room with HPMyRoom. As a result, providers will need to download HPMyRoom and set up an account in order to attend the virtual classroom training. In addition, participants will also dial into a conference call and have an opportunity to ask questions. Providers who register for this training will receive an email with directions on how to attend this training. **For this reason, it is critical that providers enter a valid email address at the time of registration.** If this email is not received three (3) days prior to the training, please contact the Provider Assistance Center toll free at 1-800-842-8440.
