

interChange Provider Important Message

Attention All Providers: Medicare Part A Crossover Claims

The purpose of this message is to inform providers that Medicare Part A claims that should have crossed over directly from Medicare between January 4th and 5th, 2024 were not received for processing in the January 5, 2024 financial cycle. Gainwell Technologies is working with the Center for Medicare and Medicaid Services (CMS) to obtain those Medicare Part A files for processing in the next financial cycle, scheduled for January 19, 2024. We apologize for any inconvenience.
