

interChange Provider Important Message

ATTENTION: Acquired Brain injury (ABI) Service Providers IMPORTANT PROGRAM REMINDERS AND CHANGES

Effective for dates of service **September 1, 2016** and forward, ABI Service Providers are reminded that claims for services provided to ABI clients must be billed by the ABI Service provider directly to Hewlett Packard Enterprise via vendor software, on the Web via the provider's secure Web account or via Electronic Visit Verification (EVV) when the check-in/check-out matches the service authorization on file for the services provided.

Effective for dates of service **November 1, 2016** and forward, EVV mandated services must be submitted to Hewlett Packard Enterprise via the EVV system when the check-in/check-out matches the service authorization on file for the services provided. Services that are EVV optional or not applicable for EVV must be billed directly to Hewlett Packard Enterprise via the provider's vendor software or on the Web via the provider's secure Web account.

IMPORTANT ABI PROCEDURE CODE/CROSSWALK CHANGES

Effective for **September 1, 2016**, the following procedure codes have unit increment changes:

- **1548P - Cognitive Behavioral Programs (FACE to FACE)** - changed from per hour to per 15 minutes
- **1561P - ABI Group Day-** changed from 1 per day to per hour with a maximum of 8 units per day.

The following data columns have been added to the ABI Procedure Code/Frequency Crosswalk:

- **EVV Mandate column** - Indicates EVV status of the procedure code.
 - Status can be: Mandated, Optional or N/A.
- **ABI Benefit Plan column** - Indicates the client's applicable ABI benefit plan.
 - Values can be: 1=ABI, 2=ABI II

NOTE: A revised ABI Procedure Code Crosswalk has been uploaded to the Web and may be found on the www.ctdssmap.com Web site: Provider > Provider Services > Provider Training > click the "here" link > Materials > **ABI Service Provider Workshops** > **ABI Procedure Code Crosswalk**.
