RE: Claims Submitted with Facility Type Code/Place of Service 19 under the HUSKY Health Primary Care Increased Payments Policy

Claims submitted with facility type code/place of service code (FTC/POS) 19 (Off Campus-Outpatient Hospital) under the HUSKY Health Primary Care Increased Payments Policy will be reprocessed by DXC Technology during the 1st claims cycle of December 2017. From 1/1/2016 through 7/20/2017 claims billed with FTC/POS 19 were incorrectly processed and paid at the non-facility rate type versus the facility rate type. Claims with FTC/POS 19 with dates of service between 1/1/2016 through 7/20/2017 will be recouped and reprocessed.

As communicated in provider bulletin 2015-97 titled “2016 HIPAA Compliant Update, Establishing Max Fees for Select Services, Removal and Addition of Select Services, Place of Service Codes”, effective for dates of service January 1, 2016 and forward, the Department added FTC/POS 19. The systematic logic that prices details eligible under the HUSKY Health Primary Care Increased Payments Policy did not update appropriately to include FTC/POS 19 under the facility rate type. As a result, claims eligible under the HUSKY Health Increased Payments Policy billed with FTC/POS 19 were, in error, reimbursed at the non-facility rate.

As of 7/21/2017, the claims processing system was updated and providers have been appropriately reimbursed the correct facility rate type payment for details billed with FTC/POS 19 for dates of service 7/21/2017 and forward.

The ID and reprocess only impacts claims paid under the HUSKY Health Increased Payments Policy for dates of services 1/1/2016 through 7/20/2017 and only when the detail was billed with FTC/POS 19.
