Electronic Health Records Incentive Program: Post-Payment Audit Tip Sheets

This message only applies to Eligible Hospitals or Professionals that are attesting to the Medicaid EHR Incentive Program.

If you recently received a notice from Myers & Stauffer saying they have selected you for a post-payment audit, an Eligible Provider Post Payment Review Tip Sheet has been posted on the CHATTER Web site under the [Post-Payment Audit](#) section to offer additional guidance.

Tips for Completing a Security Risk Analysis have also been posted under the Post-Payment Audit section of the CHATTER Web site which may be helpful to all providers whether in the pre or post-payment phase of attestation. The Security Risk Analysis is a requirement all Eligible Hospitals and Professionals must fulfill.
