Attention Providers – Provider Bulletin PB18-61 Rate Increases

The Department of Social Services issued, and then immediately rescinded, Provider Bulletin PB18-61 solely for the purpose of revising the bulletin to better describe and clarify the rate increases referenced in the bulletin. The primary purpose of these rate increases is to increase wages and benefits for direct caregivers serving Medicaid members. The revised bulletin will be issued in the near future. We apologize for any confusion caused by rescinding the bulletin.
