RE: Updates to the Reimbursement Rate for Select Long-Acting Reversible Contraceptive Device

Effective for dates of service January 2, 2025 and forward, DSS is updating the reimbursement rates for the following long-acting reversible contraceptive (LARC) device on the physician office & outpatient fee schedule:

Procedure Code	Description	Physician Office & Outpatient
J7307	Etonogestrel (contraceptive) implant system including implant and supplies	\$1214.63

Federally Qualified Health Centers:

As per provider bulletin, [PB 22-36](#) *Separate Reimbursement for Long-Acting Reversible Contraceptives in the Medical Federally Qualified Health Center (FQHC) Setting*, FQHCs will be paid the reimbursement rate listed on the family planning clinic fee schedule separately from the applicable medical encounter rate.

Hospitals:

Reimbursement for LARC devices in the outpatient hospital setting will be determined by the specific procedure code billed for the LARC device inserted. The reimbursement for LARC devices will be the rate published for the

specified procedure code on the physician office and outpatient fee schedule or, for 340B hospitals, the family planning clinic fee schedule. Hospitals should utilize the CMAP Addendum B to determine the payment type for outpatient hospital procedures.

For guidance regarding the reimbursement for LARC devices inserted immediately postpartum, please refer to provider bulletin, [PB 16-12](#) *Hospital Billing and Reimbursement for Immediate Postpartum Long-Acting Reversible Contraceptive Products*.
