RE: Updating Physician Administered Drugs on the Dialysis Clinic and Family Planning Clinic Fee Schedules

Effective for dates of service January 1, 2024, and forward, the Department of Social Services (DSS) will update the reimbursement rates for select physician administered drugs on the dialysis clinic and family planning clinic fee schedules to be consistent with the January 2024 Medicare Average Sales Price (ASP) Drug Pricing file.

The reimbursement rates for select physician-administered drugs, immune globulins, vaccines, and toxoids will be revised to equal 100% of the January 2024 Medicare ASP Drug Pricing file. Providers should continue to review [*PB 2018-10 Updates to the Reimbursement Methodology for Physician-Administered Drugs, Immune Globulins, Vaccines and Toxoids*](#) for more information on billing physician administered drugs. Please refer to the Dialysis Clinic and Family Planning Clinic fee schedules for codes eligible for reimbursement and January 2024 reimbursement updates.

This change applies to services reimbursed under the HUSKY Health A, B, C and D programs.
