## **RE: Revised CT Medical Assistance Program (CMAP) Telehealth Table – Updated the end date to 2024**

December 27, 2023

Dear Provider,

A revised Telehealth Table has been posted to the CMAP Web site. The only change is to the end date, which has been updated to 12/31/2024. No other changes have been made to the services eligible under the CMAP Telehealth policy or the policy criteria.

Providers are reminded that the CMAP Telehealth Table outlines the services that are eligible under the CMAP Telehealth policy. Providers must refer to their applicable fee schedule to identify the services for which they are eligible to bill. Additionally, providers must continue to refer to the policy guidelines listed on the CMAP Telehealth Table, PB 2023-38, the CMAP Telehealth FAQs and any other provider bulletin/guidance published regarding coverage of services via telehealth. No other changes have been made to the CMAP Telehealth Table. Providers are encouraged to monitor the CMAP Web site ([www.ctdssmap.com](http://www.ctdssmap.com)) frequently for updates to the CMAP Telehealth policy and to ensure that you are accessing the most current version of the CMAP Telehealth Table. Thank you.

Best regards,

Department of Social Services
