

Payroll Functionality

The payroll function is **not** a part of Connecticut's EVV program and no additional payroll modifications will be made to the Santrax system. Agencies can purchase a payroll service from Sandata Technologies if they so desire. To do so, please contact Sal Sparacino (ssparacino@sandata.com) at Sandata to get additional information.

Use of a payroll service may incur fees from that payroll vendor that are not paid for by DSS.
