# **Part I: Connecticut Medicaid Electronic Health Record Incentive Program**

## Introduction

The American Recovery and Re-investment Act (ARRA) of 2009 was enacted on February 17, 2009. This act provides for incentive payments to Eligible Professionals (EP), Eligible Hospitals (EH), and Critical Access Hospitals to promote the adoption and meaningful use of interoperable health information technology and qualified electronic health records (EHR).

Under ARRA, states are responsible for identifying professionals and hospitals that are eligible for these Medicaid EHR incentive payments, making payments, and monitoring payments. The Medical Assistance Provider Incentive Repository (MAPIR) is a Web-based program administered by the CT Department of Social Services (DSS) that allows Eligible Professionals and Eligible Hospitals to apply for incentive payments. The incentive payments are not a reimbursement, but are an incentive intended to encourage adoption and meaningful use of EHRs.

The Centers for Medicare & Medicaid Services (CMS) is responsible for implementing the provisions of the Medicare and Medicaid EHR incentive programs. CMS issued the Final Rule on the Medicaid EHR Incentive Program on July 28, 2010:

<http://edocket.access.gpo.gov/2010/pdf/2010-17207.pdf>

For more information on CMS EHR requirements, link to CMS EHR Page:

<https://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/>

## Purpose of the Eligible Hospital User Guide

The Medical Assistance Program Incentive Repository Eligible Hospital User Guide is a resource for healthcare professionals who wish to learn more about the Connecticut Medicaid EHR Incentive Program including detailed information and resources on eligibility and attestation criteria as well as instructions on how to apply for incentive payments for eligible hospitals. This user guide also provides information on how to apply to the program via the Medical Assistance Provider Incentive Repository (MAPIR), which is the Department of Social Services' web-based EHR Incentive Program application system.

The best way for a new user to orient themselves to the EHR Incentive Program requirements and processes is to read through each section of this user guide in its entirety prior to starting the application process.

In the event this user guide does not answer your questions or you are unable to navigate MAPIR or complete the registration, application, and validation process, you should contact the EHR Assistance Center either by email at [ctmedicaid-ehr@dxc.com](mailto:ctmedicaid-ehr@dxc.com) or by phone at 1-855-313-6638 (toll free).

### Other Resources

There are a number of resources available to assist providers with the Connecticut Medicaid EHR Incentive Program application process. These resources can be found at: [www.ctdssmap.com](http://www.ctdssmap.com), under Provider, EHR Incentive Program. For example, there are Important Messages that are frequently posted to the site to keep providers updated, frequently asked questions and quick links to related Web sites.

## Who is Eligible?

The CMS Final Rule outlines the following mandatory criteria for an Eligible Hospital (EH) to be considered for the Connecticut Medicaid EHR Incentive Program.

The Department also requires that EHs be enrolled as a Connecticut Medical Assistance Program (CMAP) provider without sanctions or exclusions. Hospitals that are not enrolled will need to enroll with CMAP prior to applying for the Department’s EHR Incentive Program and must meet program requirements, including meeting Medical Assistance patient volume thresholds. To qualify for an incentive payment under the Medicaid EHR Incentive Payment Program, an Eligible Hospital must have a minimum 10% Medicaid patient volume threshold. Children’s hospitals do not have a patient volume threshold.

*Note: HUSKY B patients who in CMS terms are defined as members of a Children’s Health Insurance Program (CHIP) do not count toward the Medicaid patient volume criteria.*

EHs for the Medical Assistance program in Connecticut include acute care, critical access and children’s hospitals. Hospitals are eligible for both Medicaid and Medicare incentive payments, except for children’s hospitals and cancer hospitals which are only eligible for Medicaid incentive payments. There are specific sets of CMS Certification Numbers (CCN) that correspond to EHs which are listed in Figure 1 below.

**Figure 1: Hospital Eligibility Requirements per the CMS Final Rule**

Provider Type	Requirements	Threshold
<b>Eligible Hospitals</b> (Measured by Medical Assistance discharges over total discharges)		
<b>Acute Care including CAH</b>	Acute care: CCNs between 0001 – 0879 Critical Access Hospitals: CCNs between 1300 – 1399	10%
<b>Children’s Hospital</b>	CCNs between 3300 – 3399	No patient volume requirement

Please note that a hospital is eligible for an incentive payment based on their CCN.

## Overview of the EHR Incentive Program Process

The following steps describe the Connecticut Medicaid EHR Incentive Program application process for hospitals that are applying for their **first year payment**:

1. Go to the following link and fill out the information requested so your CCN can be updated in the Medicaid Management Information System that interfaces with MAPIR:

[http://www.surveymonkey.com/s/EHR\\_Registration\\_Information](http://www.surveymonkey.com/s/EHR_Registration_Information)

The following information will be required:

- National Provider Identifier (NPI)
  - Hospital Name
  - Automated Voice Response System (AVRS) IDs (previously known as Medicaid IDs) - any that are associated with your acute care CCN that you registered with CMS (example: inpatient/outpatient IDs)
  - CMS Certification Number (CCN) – This will be matched with the information provided by CMS
  - Contact name(s) and email(s)
  - Contact telephone number(s)
2. Complete your CMS Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A) registration.

<https://ehrincentives.cms.gov/hitech/login.action>

Applicants will need to provide information such as:

- Payee's NPI and Tax Identification Number (TIN)
- CMS Certification Number (CCN)
- Incentive Program option of Medicare or Medicaid (Connecticut Medical Assistance Program) *Note: If Medicaid, choose the state in which you are applying*
- Valid email contact information

NOTE: If you are applying for your second payment, you will not go to the CMS R&A to re-register, but if you are a dually-eligible hospital applying for a second payment, you will need to go to CMS to attest to Meaningful Use prior to submitting your application through our MAPIR System. Children's Hospitals will not need to go to CMS to re-register but will come directly into the MAPIR System to attest to Meaningful Use.

3. Once successfully registered with the R&A, eligible applicants will receive a Welcome letter via email stating that they can register in MAPIR, which is accessed through the provider secure portal at [www.ctdssmap.com](http://www.ctdssmap.com). This may take up to two business days following successful registration with the R&A. MAPIR is the Department's Web-based system that will track and act as a repository for information related to applications, attestations, payments, appeals, oversight functions, and interface with R&A. You will be able to track the status of your application through the MAPIR system and should not go through the CMS R&A system to verify application status.

**Once successful R&A registration is completed, no changes will need to be made at the CMS R&A in subsequent years, unless there is a change in CCN, TIN or NPI Numbers due to a change in ownership.**

4. In order to access MAPIR, every hospital has an existing Web Secure Provider Portal IDs, most likely several IDs. Most hospitals will be able to gain access to this ID through their billing office as they access the Web secure provider portal on a regular basis. In order to access the MAPIR system, the administrator of your hospital's **INPATIENT** AVRS Web ID will need to create a "clerk" ID for the individual that will be completing the hospital's attestation in MAPIR. It is important that they do not use the Outpatient AVRS ID because access to MAPIR cannot be gained through that ID.

The hospital Web ID administrator should already know how to set up a clerk account as these IDs must not be shared. The full instructions are on our Web site [www.ctdssmap.com](http://www.ctdssmap.com), under Information, Publications, Provider Manuals, Chapter 10 – Web Portal, Creating a clerk.

5. To access MAPIR you will go to the secure provider portal on our Web site, [www.ctdssmap.com](http://www.ctdssmap.com).

Applicants will need to verify the information displayed in MAPIR and will also need to enter additional required data elements and make attestations about the accuracy of the data elements entered in MAPIR. Applicants will need to demonstrate:

- They meet Medicaid patient volume thresholds
- They are adopting, implementing, upgrading or meaningfully using federally-certified EHR systems
- They meet all other federal program requirements

- Applicants will need information such as:

CMS EHR Certification ID #

Dates for 90-day Medicaid volume

Medicaid discharges/ED visits

Out-of-State Medicaid encounters/ED visits

Total discharges\*

Total inpatient Medicaid bed days\*

Total Charges – All Discharges and Outpatient\*

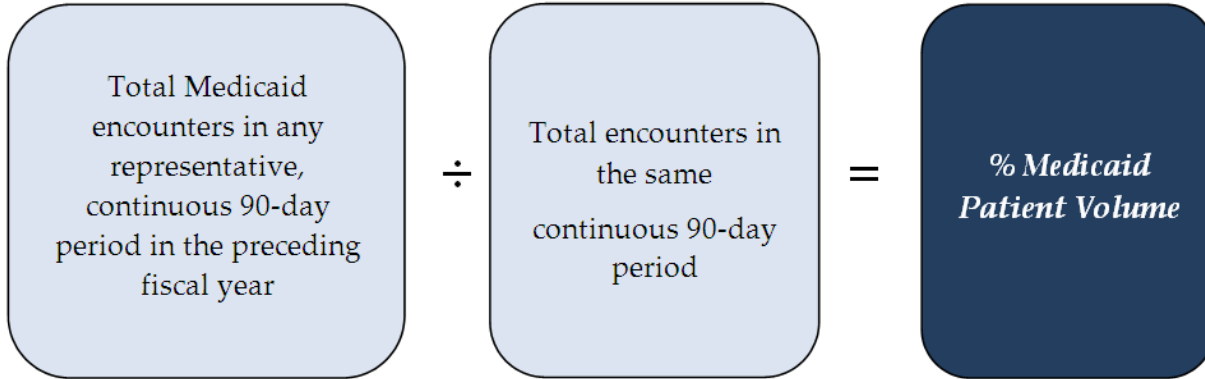

Total Charges – Charity Care Inpatient and Outpatient\*

*\* Cost data information cannot be changed by an EH once the first payment has been issued.*

- In the MAPIR application there is a section where you can upload documentation related to your application (i.e. signed contracts, volume reports, etc.).
- The Department will use its own information (such as OHCA Filings) and information in MAPIR to review applications and make approval decisions. The Department will inform all applicants whether they have been approved or denied. All approvals and denials are based on federal rules for the EHR Incentive Program.
- Payments will be issued via the standard CT Medical Assistance Program's financial payment cycle schedule that runs twice a month. Hospitals will see their payments posted on their remittance advices and their annual 1099s.
- It is possible that DXC Technology or the Department may need to contact applicants during the application process before a decision can be made to approve or deny an application. Applicants are encouraged to contact the EHR Assistance Center either by email at [DXCctmedicaid-ehr@dxc.com](mailto:DXCctmedicaid-ehr@dxc.com) or by phone at 1-855-313-6638 (toll free) if they have questions about the process. Please include your name and NPI number on all correspondence. Applicants have appeal rights available to them if, for example, an applicant is denied an EHR incentive payment. The Department will convey information on the appeals process to all who are denied.
- SUBSEQUENT YEARS: Once AIU has been completed for Medicaid, the subsequent Meaningful Use attestations will take place at the CMS R&A Web site for dually-eligible hospitals and the EH will only need to specify that they are applying for Meaningful Use with Medicaid that year.

## Patient Volume Calculation

In order to be eligible for the Connecticut Medicaid EHR Incentive Program, EHs must meet eligible patient volume thresholds; with the exception of Children’s Hospitals. The general rule is that EHs must have at least 10 percent patient volume attributable to patient discharges and emergency department encounters for individuals receiving Medicaid.

Medicaid patient volume calculations are based on inpatient discharges and emergency department visits, for which Medicaid paid any part. Medicaid patient volume is measured over a continuous 90-day period in the previous hospital fiscal year and for all hospital locations. Hospitals only need to enter the start date and MAPIR will calculate the end date. For example, if requesting a 2012 EHR incentive payment and your fiscal year is from October 1 – September 30, the start of your continuous 90-day period must start and end between October 1, 2010 and September 30, 2011.

For purposes of calculating EH patient volume, a **Medicaid encounter is defined as services rendered to an individual on any one day where Medicaid paid for part or all of the service; or paid all or part of the individual’s premiums, copayments, and cost-sharing.** *Note: HUSKY B patients who in CMS terms are defined as members of a Children’s Health Insurance Program (CHIP) do not count toward the Medicaid patient volume criteria.*

EXAMPLE: The hospital is applying to the EHR Incentive Program in Federal Fiscal Year 2011 (Oct 1, 2010 – Sept 30, 2011). The following is an example of a representative, consecutive 90-day period from the previous federal fiscal year:

April 1, 2010 – June 29, 2010 - FFY 2010	
Medicaid FFS, MLIA, and HUSKY A Inpatient Discharges and ED Visits	2,225
Total Hospital Inpatient Discharges and ED Visits	6,725

The eligibility calculation is as follows:

$$\frac{\text{(Medicaid Discharges + Medicaid ED Visits)}}{\text{(Total Discharges + Total ED Visits)}} = \text{Medicaid Patient Volume}$$

$$\frac{(2,225)}{(6,725)} = 33\%$$

## Hospital Incentive Payments

The federal rule also sets forth the methodology that states must use to calculate EHR incentive payments. The Department will calculate patient volume and payments for all eligible hospitals using information submitted by the hospital upon application with the Department. The Department is responsible for using auditable data sources to calculate EHR hospital incentive amounts and will use OHCA filings as well as other Departmental data to validate the self-reported information. The Department will make payments to eligible hospitals over a three-year time period: 50 percent in the first year, 30 percent in the second year and 20 percent in the third year. CMS rules allow the Department to audit and validate the 3-year calculation as cost report data is received. Payments will be issued via the standard financial cycle that runs twice a month and hospitals will see their payments posted on their remittance advices.

Hospitals will be required to provide and attest to the following information for the incentive payment to be calculated:

- Total Discharges (inpatient) for the most recent 4 fiscal years
- Total Number of Medicaid Inpatient Bed Days
- Total Number of Inpatient Bed Days
- Total Charges for all Inpatient and Outpatient (no exclusions\*)
- Total Charges for Charity Care for all Inpatient and Outpatient (no exclusions\*)

Note: All bed day totals and discharges should exclude nursery, psych and rehab days. \*Do not exclude nursery, psych and rehab from Charges.

No hospital may begin receiving incentive payments for any year after Fiscal Year (FY) 2016, and after FY 2016, a hospital may not receive an incentive payment unless it received an incentive payment in the prior fiscal year

### **Connecticut Medicaid EHR Incentive Payment Program – HOSPITAL PAYMENT CALCULATION EXAMPLE**

On the following pages there is an example of the steps that will be followed to calculate incentive payments to eligible hospitals for payment year 2011. MAPIR will be making these calculations based on data the hospital will enter into MAPIR at the time of registration and attestation.

**Step 1: Calculating the Average Annual Growth Rate:**

To calculate the average annual growth rate the hospital will report the total discharges from the 4 most recent fiscal year cost reports.

Total discharges are the sum of all inpatient discharges (excluding nursery, psych and rehab discharges which are not considered acute care).

Fiscal Year	Total Discharges	Calculating Annual Growth rate	Average Annual Growth Rate
2010	26,900	$26,900 - 25,800 \div 25,800 = 4.3\%$	4.3
2009	25,800	$25,800 - 24,700 \div 24,700 = 4.5\%$	+ 4.5
2008	24,700	$24,700 - 23,500 \div 23,500 = 5.1\%$	+ 5.1
2007	23,500	$2008 - 2007 \div 2007 = \text{growth rate}$	= 13.9 $\div$ 3 = <b>4.6%</b>

**Average Annual Growth Rate 4.6%**

**Step 2: Apply the Average Annual Growth Rate to the Base Number of Discharges projected out over the next 3 years:**

The number of discharges for the Base Year of Fiscal Year 2010 is multiplied by the average annual growth rate of 4.6%.

Projected Inpatient Discharges			
Fiscal Year 2010	Fiscal Year 2011	Fiscal Year 2012	Fiscal Year 2013
<b>26,900</b>			
X 1.046	⇒ <b>28,137</b>		
	X 1.046	⇒ <b>29,432</b>	
		X 1.046	⇒ <b>30,786</b>

**Step 3: Determine the number of eligible discharges and multiply by the appropriate discharge payment amount**

1. For the first through the 1,149th discharge, \$0
2. For the 1,150th through the 23,000th discharge, \$200 per discharge
3. For any discharge greater than the 23,000th, \$0

In this example, discharges for each year were greater than both 1,149 and 23,000, so the maximum number of discharges that can be counter are 21,851 (23,000 – 1,149) which then gets multiplied by the \$200 per discharge.

Fiscal Year	Calculated Discharges	Eligible Discharges	@ \$200 Per Discharge	Eligible Discharge Payment
2010	26,900	21,851	\$200	\$4,370,200
2011	28,137	21,851	\$200	\$4,370,200
2012	29,432	21,851	\$200	\$4,370,200
2013	30,786	21,851	\$200	\$4,370,200

**Step 4: Add the Base Year Amount of \$2,000,000 per payment year to the eligible discharge payment**

Fiscal Year	Base Year Amount		Eligible Discharge Payment		Total Eligible Discharge Payment
2010	\$2,000,000	+	\$4,370,200	=	\$6,370,200
2011	\$2,000,000	+	\$4,370,200	=	\$6,370,200
2012	\$2,000,000	+	\$4,370,200	=	\$6,370,200
2013	\$2,000,000	+	\$4,370,200	=	\$6,370,200

**Step 5: Multiply the Medicaid Transition Factor to the Eligible Discharge Payment to arrive at the Overall EHR Amount**

The transition factor equals 1 for year 1, ¾ for year 2, ½ for year 3 and ¼ for year 4. All four years are then added together.

Fiscal Year	Total Eligible Discharge Payment		Medicaid Transition Factor		Overall EHR Amount
2010	\$ 6,370,200	X	1	=	\$ 6,370,200
2011	\$ 6,370,200	X	0.75	=	\$ 4,777,650
2012	\$ 6,370,200	X	0.5	=	\$ 3,185,100
2013	\$ 6,370,200	X	0.25	=	\$ 1,592,550
<b>Total EHR Amount</b>					<b>\$ 15,925,500</b>

**Step 6: Calculate the Medicaid Share**

The next step requires that the Medicaid Share be applied to the total EHR amount. The Medicaid Share is the percentage of inpatient bed-days (Medicaid, MLIA and HUSKY A managed care) divided by the estimated total inpatient bed days adjusted for charity care. *Note: All bed day totals should exclude nursery, psych and rehab days.* To calculate the Medicaid Share, the hospital will need to provide the following information from the hospital fiscal year that ends during the federal fiscal year prior to the fiscal year that serves as the first payment year:

Total Number of Inpatient Medicaid Bed Days	Total Inpatient Days	Total Charges for All Discharges	Total Charity Care for All Discharges
7,000	21,000	\$ 10,000,000	\$ 1,300,000

Calculate the Non-Charity Care ratio by subtracting charity care (ALL CHARGES INPATIENT AND OUTPATIENT) from total charges for all discharges (and outpatient) and dividing by total charges for all discharges (this includes outpatient).

The charity care adjustment is the percentage of the total charges that are not associated with charity care.

$$\begin{aligned}
 &\text{Total charges} \quad \$10,000,000 \\
 &\text{-- Charity Care} \quad \underline{\$1,300,000} \\
 &= \$8,700,000 \implies \$8,700,000 \div \$10,000,000 = 87\%
 \end{aligned}$$

Charity Care Adjustment	87%
-------------------------	-----

**Calculate the Medicaid Share:**

Medicaid Share = Medicaid Inpatient Bed-Days ÷ ( Total Inpatient Bed-Days X Charity Care Adjustment)

$$\begin{aligned}
 &7,000 \div (21,000 \times .87) = 0.383 \\
 &18,270
 \end{aligned}$$

Medicaid Share	38.3%
----------------	-------

**Step 7: Calculate the aggregate incentive amount.**

To arrive at the aggregate incentive amount multiply the overall EHR Amount of \$15,925,500 by the Medicaid Share of 38.3%.

$$\$15,925,500 \times .383 = \$6,099,467$$

Total Incentive Payment Amount	\$6,099,467
--------------------------------	-------------

This is the total Incentive Amount a hospital can receive for this example

Step 8: Distribute Incentive Payments over a 3 year period:

The Department will issue hospital incentive payments over a 3 year period. The following illustrates the payments in 3 consecutive years at 50, 30 and 20% respectively. The hospital would need to continue to meet the eligibility requirements and meaningful use criteria in all incentive payment years.

2011 @ 50%	2012 @ 30%	2013 @ 20%
\$3,049,734	\$1,829,840	\$1,219,893

## Adopt, Implement or Upgrade (AIU) and Meaningful Use (MU)

The goal of the Connecticut Medicaid EHR Incentive Program is to promote the adoption, implementation, upgrade, and meaningful use of certified EHRs. Hospitals are required to attest to the status of their current certified EHR adoption phase.

- **Adopted** – acquired, purchased or secured access to certified EHR technology.
- **Implemented** – installed or commenced utilization of certified EHR technology capable of meeting meaningful use requirements.
- **Upgraded** – expanded the available functionality of certified EHR technology capable of meeting meaningful use requirements at the practice site, including staffing maintenance, and training, or upgrade from existing EHR technology to a federally- certified EHR technology.
- **Meaningful User** – Eligible Hospitals can attest to meeting meaningful use requirements as set forth by CMS. **Dually eligible hospitals will attest to reaching the MU requirements at the CMS R&A website. Children’s hospitals (Medicaid only hospitals) will attest to MU through MAPIR.**

## Attestations and Audits

The Department may access all relevant records and documentation and take any other appropriate quality assurance measures it deems necessary to verify provider attestations or conduct pre-payment or post-payment audits to assure compliance with the provisions of sections 17b-34-1 to 17b-34-9, inclusive, of the Regulations of Connecticut State Agencies and other regulatory and statutory requirements. The department may disallow or recover any amounts paid or pending to the provider for which required documentation is not maintained or not provided to the department upon request.

For purposes of documenting AIU, the provider shall make available to the department all relevant documents, including, but not limited to, one or more of the following documents, as directed by the department:

- (1) Contract;
- (2) software license;
- (3) receipt or evidence of cost;
- (4) purchase order;
- (5) evidence of cost or contract for training; or
- (6) payroll record demonstrating hiring of staff to assist with the implementation.

After conducting an audit, if the department finds that the provider was not eligible for payments made to the provider, the department may disallow and recover those funds. The provider shall promptly repay all disallowed funds to the Department not more than forty-five days after receiving notice of the disallowance. In addition to taking any other lawful actions, the department may also offset such funds against current or future payments that the department otherwise would have made to the provider.

A provider aggrieved by a decision in a final written audit conducted under this section may request a written review from the Department. The provider shall request such review in writing and not later than thirty days after the department's final audit report was issued, together with a detailed written description of each specific item of aggrievement. The scope of the review shall not include or consider facts or circumstances outside of the audit and the final written audit report. An individual other than a person who conducted the audit or made the department's final audit determination shall conduct the review. At the discretion of the person presiding over the review, the person may make informal inquiries to the provider or the Department; accept written statements from the provider and the Department; and hold an informal conference with the Department and the provider for the purpose of fact finding, accepting oral statements, or hearing witness testimony, after giving appropriate notice thereof to the provider and the department. After completing the final review, the person presiding over the review shall issue a final written decision regarding what, if any action will be taken, including, but not limited to, revising the final written audit or any other action within the scope of the Department's authority.

### **MAPIR Attestations**

EHRs will need to verify the information displayed in MAPIR and will also need to enter additional required data elements and make attestations about the accuracy of data elements entered in MAPIR. For example, applicants will need to demonstrate that they meet patient volume thresholds, that they are adopting, implementing or upgrading federally-certified EHR systems or are attesting to being a meaningful user of a federally-certified EHR system, and that they meet all other federal program requirements.

The MAPIR system design is based on the CMS Final Rule for the EHR Incentive Program and Connecticut's specific eligibility criteria. In addition to the MAPIR system reviews, all eligible hospitals will be reviewed prior to payment. The Department will verify the information submitted in the application and determine payment amounts

A series of reviews will identify applicants who do not appear to be eligible based on the following elements of the application:

- Applicants who do not meet patient volume thresholds
- Cost data
- Ineligible hospital types
- Sanctions

## Overpayments

MAPIR will be used to store and track records of incentive payments for all participating hospitals. Once an overpayment is identified, MAPIR will determine the amount of overpayments that have been made and must be returned by the hospital.

When overpayments are identified, the Department will initiate the payment recoupment process and communicate with CMS on repayments. The Department will attempt to recover any overpayments from instances of abuse or fraud or error.

The Department will request that hospitals submit recoupment payments by check; if a provider fails to submit a payment by check within 90 calendar days of the notice to return the EHR incentive payment, the Department will generate an accounts receivable to offset payment of future claims to recoup the EHR incentive overpayments. Federal law requires the Department to return overpayments within 365 days of identification. Money is either recouped in accordance to federal timeline standards or during the reconciliation process at the beginning of the subsequent program year.

## Appeals

A provider aggrieved by a decision concerning only the issues set forth in 42 CFR 495.370(a) or section 17b-34(c) of the Connecticut General Statutes may request an initial review of the department's determination, and such review shall occur only if the department receives the provider's written request for an initial review, together with any supporting documents or data, not more than thirty days after the provider received the department's determination.

An individual other than the person who made the department's determination shall conduct the initial review. The individual who conducts the initial review shall issue a written decision to the provider not more than thirty days after the department receives the request for initial review.

If the provider is aggrieved by the outcome of the initial review, the provider may request an administrative hearing in writing to the commissioner, together with a detailed written description of all items of aggrievement, not more than fourteen days after the date the written initial review decision was issued.

The department shall conduct an administrative hearing requested pursuant to subsection (c) of this section in accordance with chapter 54 of the Connecticut General Statutes.

## **Part II: Connecticut Medical Assistance Provider Incentive Repository (MAPIR) System**

## MAPIR Overview

This section of the Connecticut Medicaid EHR Incentive Program Eligible Hospital User Guide describes how users apply for incentive payments through the Medical Assistance Provider Incentive Repository (MAPIR). MAPIR is the state-level information system for the EHR Incentive Program that will both track and act as a repository for information related to payment, applications, attestations, oversight functions, and interface with the Medicare and Medicaid EHR Incentive Program Registration and Attestation System (R&A).

MAPIR is intended to streamline and simplify the hospital enrollment process by interfacing with other systems to verify data. Hospitals will enter data into MAPIR and attest to the validity of data thus improving the accuracy and quality of the data.

The MAPIR system will be used to process provider applications, including:

Interfacing between the Department and the R&A to:

- Receive initial hospital registration information
- Report eligibility decisions to CMS
- Report payment information (payment date, transaction number, etc.) to CMS

Verify information submitted by applicant

Determine hospital eligibility

Allow hospitals to submit:

- Attestations
- Payee information
- Submission confirmation/digital signature

Communicate Payment Determination

To begin in the MAPIR application process, hospitals must:

1. Go to the following link and fill out the information requested so your CCN can be updated in the Medicaid Management Information System that interfaces with MAPIR:

[http://www.surveymonkey.com/s/EHR\\_Registration\\_Information](http://www.surveymonkey.com/s/EHR_Registration_Information)

2. Enroll at the R&A - if this is your first payment year and the hospital has not already registered at the R&A

Please access the federal Web site below for instructions on how to do this or to register.

For general information regarding the Incentive Payment Program:

<http://www.cms.gov/EHRIncentivePrograms>

To register:

<https://ehrincentives.cms.gov/hitech/login.action>

You must register at the [CMS Medicare and Medicaid EHR Incentive Program Registration and Attestation System](#) (also known as R&A) website before accessing MAPIR. If you access MAPIR and have not completed this registration, you will receive the following screen:

MAPIR

<b>Name:</b>	Not Available
<b>Applicant NPI:</b>	Not Available
<b>Status:</b>	<b>Not Registered at R&amp;A</b>

---

Our records indicate that you have not registered at the CMS Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A).

You must register at the R&A prior to applying for the Medicaid EHR Incentive Program. Please click [here](#) to access the R&A registration website.

If you have successfully completed the R&A registration, please contact the <state> for assistance.

Please access the federal Web site below for instructions on how to do this or to register.

*For general information regarding the Incentive Payment Program:*

<http://www.cms.gov/EHRIncentivePrograms>

*To register:*

<https://ehrincentives.cms.gov/hitech/login.action>

You will not be able to start your MAPIR application process unless you have successfully completed this federal registration process. Once MAPIR has received and matched your provider information, you will receive an email to begin the MAPIR application process. Please allow at least two days from the time you complete your federal registration before accessing MAPIR due to the necessary exchange of data between these two systems.

- 3. Be enrolled in the Connecticut Medical Assistance Program
- 4. Be free of sanctions or exclusions

**Note:** In some cases, hospitals will be re-directed to the R&A to correct discrepant data.

## Connecticut’s Secure Provider Portal – Access to MAPIR

Hospitals can access MAPIR through Connecticut Medical Assistance Program’s secure provider portal at [www.ctdssmap.com](http://www.ctdssmap.com). NOTE: The secure provider portal is located under Provider, Secure Site. Eligible hospitals must log in with their acute care inpatient ID number.

In order to access MAPIR, every hospital has existing Web Secure Provider Portal IDs, most likely several IDs. Most hospitals will be able to gain access to this ID through their billing office as they access the Web secure provider portal on a regular basis. In order to access the MAPIR system, the administrator of your hospital’s INPATIENT AVRS Web ID will need to create a “clerk” ID for the individual that will be completing the hospital’s attestation in MAPIR. It is important that they do not use the Outpatient AVRS ID because access to MAPIR cannot be gained through that ID.

The hospital Web ID administrator should already know how to set up a clerk account as these IDs must not be shared. The full instructions are on our Web site [www.ctdssmap.com](http://www.ctdssmap.com), under Information, Publications, Provider Manuals, Chapter 10 – Web Portal, Creating a clerk. If you have questions regarding Web ID set up please contact the Provider Assistance Center at 1-800-842-8440.

### Changes to your R&A Registration

Please be aware that when accessing your R&A registration information, should any changes be initiated but not completed, the R&A may report “Registration in Progress”. This will result in your application being placed in a hold status within MAPIR until the R&A indicates that any pending changes have been finalized. You must complete your registration changes on the R&A website prior to accessing MAPIR or certain capabilities will be unavailable. For example, it will not be possible to submit your application, create a new application, or abort an incomplete application. If you access MAPIR to perform the above activities and have not completed your registration changes, you will receive the following screen.

<b>Payment Year</b>	1	<b>Program Year</b>	2012
---------------------	---	---------------------	------

**Name:** Medicaid Hospital

**Applicant NPI:** 1234567890

**Status:** Registration In Progress

---

**IMPORTANT:**

Our records indicate that your registration is in progress at the CMS Medicare and Medicaid EHR Incentive Payment Program Registration and Attestation System (R&A) and you must complete that registration process before you can access your application here.

The R&A website [https://www.cms.gov/EHRIncentivePrograms/20\\_RegistrationandAttestation.asp](https://www.cms.gov/EHRIncentivePrograms/20_RegistrationandAttestation.asp) will have instructions on how to save your registration after a modification.

You must choose "Submit Registration" at the R&A after you have reviewed and confirmed the information is correct.

Please allow 24 to 48 hours after saving your registration at the R&A before accessing your EHR Medicaid Incentive application.

If you have successfully completed the CMS R&A registration, please contact <state defined ID> for assistance.

Should the R&A report your registration as "In Progress" and an application be incomplete or under review (following the application submission), MAPIR will send an email message reporting that such notification has been received if a valid email address was provided by either the R&A, or by the provider on the incentive application in MAPIR. Please allow at least two days from the time you complete your federal registration changes before accessing MAPIR due to the necessary exchange of data between these two systems.

### Identify one individual to complete the MAPIR application

**Note:** You must use the same Web Secure Provider Portal User ID throughout the application process including if you start and then have to restart the application. The same Web Secure Provider Portal User ID should be used in subsequent years as well. If a password is forgotten, the hospital's ID administrator must reset the password. If there is a situation where the user who completed the application in previous years is no longer available for the current year's attestation, please contact the EHR Assistance Center either by email at [ctmedicaid-ehr@dxc.com](mailto:ctmedicaid-ehr@dxc.com) or by phone at 1-855-313-6638 (toll free). Please include your name and NPI number on all correspondence.

Once logged into the secure site, find the MAPIR link on the gray menu bar and click the Open MAPIR button to access the **MAPIR** screen.

Home Information Provider Trading Partner ConnPACE Pharmacy Information Claims Eligibility Prior Authorization Trade Files **MAPIR** Messages Account

Connecticut Medical Assistance Provider Incentive Repository (MAPIR) is a web based application available to eligible providers and hospitals to apply for the Connecticut Medicaid Electronic Health Record (EHR) Incentive Payment Program. An eligible provider/hospital starts the process by registering for the Program at the CMS EHR Incentive Program Registration and Attestation System (R&A) at <https://ehrincentives.cms.gov/>.

MAPIR will interface with the CMS system and match the data supplied by the R&A to the provider's data in the MMIS. Once matched, the provider will be able to access the MAPIR to register and attest to the EHR Certification Number for the EHR technology adopted, implemented or upgraded and provide Medicaid encounter and total patient encounter volumes. Please complete each of the steps in the MAPIR application. When you have completed all of the steps, please click on the "submit" button to submit your application.

Open MAPIR

**Important:** If you encounter issues with the way the MAPIR screens display, such as extra lines in tables, you may be running your browser in compatibility mode. To remove the MAPIR site from compatibility mode, in your browser go to Tools and select Compatibility View Settings. Select entries that reference "www.ctdssmap.com" in the URL path from the list and click Remove.

## Completing the MAPIR Application

MAPIR uses a tab arrangement to guide you through the application. Following are the different tabs in MAPIR:

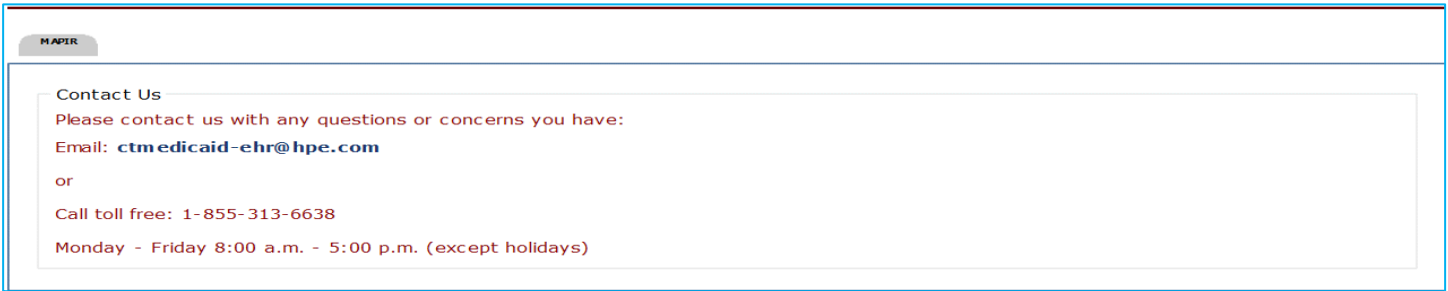

- Get Started
- R&A and Contact Info
- Eligibility
- Patient Volume
- Attestation
- Review
- Submit

You must complete the tabs in the order presented. You can return to previous tabs to review the information or make modifications until you submit the application. You cannot proceed without completing the next tab in the application progression, with the exception of the Get Started and Review tabs which you can access anytime. Once you submit your application, you can no longer modify the data. It will only be viewable through the Review tab. Also, the tab arrangement will change after submission to allow you to view status information.

As you proceed through the application process, you will see your identifying information such as Name, National Provider Identifier (NPI), CMS Certification Number, Tax Identification Number (TIN), Payment Year, and Program Year at the top of most screens. This is information provided by the R&A.

A **Print** link is displayed in the upper right-hand corner of most screens to allow you to print information entered. You can also use your Internet browser print function to print screen shots at any time within the application.

There is a **Contact Us** link with contact instructions should you have questions regarding MAPIR or the Medicaid Incentive Payment Program.

Most MAPIR screens display an **Exit** link that closes the MAPIR application window. If you modify any data in MAPIR without saving, you will be asked to confirm if the application should be closed (as shown to the right).

You should use the **Save & Continue** button on the screen before exiting or data entered on that screen will be lost.

The **Previous** button always displays the previous MAPIR application window without saving any changes to the application.

The **Reset** button will restore all unsaved data entry fields to their original values.

The **Clear All** button will remove standard activity selections for the screen in which you are working.

A red asterisk (\*) indicates a required field.

---

**Note**  
Use the MAPIR Navigation buttons in MAPIR to move to the next and previous screens. Do not use the browser buttons as this could result in unexpected results.

---

As you complete your incentive application you may receive validation messages requiring you to correct the data you entered. These messages will appear above the navigation button. See the Additional User Information section for more information.

Many MAPIR screens contain help icons  to give the provider additional details about the information being requested. Moving your cursor over the  will reveal additional text providing more details.

Fiscal Year	Total Discharges	Inpatient Bed Days	Total Charges - All Discharges	Total Charges - Charity Care
10/01/2009-09/30/2010	*10890	7765	* \$ 109878943	* \$ 10990988
10/01/2008-09/30/2009	*8876			

For each reporting fiscal year, enter the total number of inpatient discharges for all patients regardless of health insurance coverage for all locations listed

## Step 1 – Getting Started

Log in to the secure account for the hospital from [www.ctdssmap.com](http://www.ctdssmap.com) portal and locate the **MAPIR** link.

Click the link to access the **MAPIR** screen.

The screen below, the Medicaid EHR Incentive Program Participation Dashboard, is the first screen you will see when you begin the MAPIR application process.

This screen displays your incentive applications. The incentive applications that you are eligible to apply for are enabled. Your incentive applications that are in a Completed status are also enabled; however, you may only view these applications.

The **Stage** is automatically associated with a stage of Meaningful Use that is required by the current CMS rules, or by the rules that were in effect at the time when the application was submitted. This column displays the Stage and Attestation Phase attained by the current and previous applications. The Stage column will be blank for incentive applications in a Not Started status.

You must attest to two years of Stage 1 Meaningful Use before proceeding to Stage 2 Meaningful Use, and three years of Stage 1 if you have attested to Meaningful Use in Program Year 2011. You must then proceed to attest to two years of Stage 2 Meaningful Use. Starting with program year 2015, Modified Stage 2 of Meaningful Use has replaced the previous Stage 1 and Stage 2.

If it is your first year participating (Payment Year 1), the Stage column will be blank. Once you have submitted the incentive application, the Stage column will display Adoption, Implementation, Upgrade, or Meaningful Use.

If it is not your first year participating (Payment Year greater than 1), the Stage column will only display the Stage, not the Attestation Phase, until you submit the incentive application.

If you are a Dually Eligible and Medicaid only hospital, the Stage column will display Adoption, Implementation, Upgrade, or Meaningful Use.

The **Status** will vary, depending on your progress with the incentive application. The first time you access the system the status should be **Not Started**.

From this screen you can choose to edit and view incentive applications in an Incomplete or Not Started status. You can only view incentive applications that are in a Completed, Denied, or Expired status. Also from this screen, you can choose to abort an incentive application that is in an Incomplete status. When you click **Abort** on an incentive application, all progress will be eliminated for the incentive application.

When an incentive application has completed the payment process, the status will change to **Completed**.

The screen on the following page displays an EH that is in the second year of Stage 1 Meaningful Use.

Select an application and click **Continue**.

MAPIR

### Medicaid EHR Incentive Program Participation Dashboard

**NPI**      9999999999

**CCN**      999999

**TIN**      9999999999

(\*) Red asterisk indicates a required field.

*Application (Select to Continue)	Stage	Status	Payment Year	Program Year	Incentive Amount	Available Actions
<input type="radio"/>	Stage 1 Meaningful Use 90 Days	Completed	1	2013	\$195,515.21	Select the "Continue" button to view this application.
<input type="radio"/>	Stage 1 Meaningful Use	Incomplete	2	2014	Unknown	Select the "Continue" button to process this application or click <span style="border: 1px solid black; padding: 2px;">Abort</span> to eliminate all progress.
<input type="radio"/>	Future	Future	3	Future	Unknown	None at this time
<input type="radio"/>	Future	Future	4	Future	Unknown	None at this time

Continue

**Note**  
 A state may allow a grace period which extends the specific Payment Year for a configured length of time. If two applications are showing for the same Payment Year, but different Program Years, one of your incentive applications is in the grace period. In this situation, the following message will display at the bottom of the screen.

*You are in the grace period for program year <Year> which began on <Date> and ends on <Date>. The grace period extends the amount of time to submit an application for the previous program year. You have the option to choose the previous program year or the current program year.*

You may only submit an application for one Program Year so once you select the application, the row for the application for the other Program Year will no longer display. If the incentive application is not completed by the end of the grace period, the status of the application will change to Expired and you will no longer have the option to submit the incentive application for that Program Year.

The R&A Not Registered or In Progress screen displays a status of *Not Registered at R&A* to indicate that you have not registered at the R&A, or the information provided during the R&A registration process does not match that on file with Connecticut Medicaid Program. A Status of *Registration In Progress* indicates that you have initiated but not completed R&A registration changes. If you feel this status is not correct you can click the Contact Us link in the upper right for information on contacting Connecticut Medicaid EHR Incentive program helpdesk. A status of *Not Started* indicates that the R&A and Connecticut MMIS information have been matched and you can begin the application process.

The **Status** will vary, depending on your progress with the application. The first time you access the system the status should be **Not Started**.

*For more information on statuses, refer to the Additional User Information section later in this guide.*

Enter the 15-character **CMS EHR Certification ID**.

Click **Next** to review your selection. Click **Reset** to restore this panel back to the starting point. Click **Exit** to exit MAPIR.

The system will perform an online validation of the CMS EHR Certification ID you entered.

*Note: As of July 1, 2015, CMS retired the 2011 Edition CEHRT IDs. This means that if you were issued a 2011 Edition CEHRT ID you may now be using a system that has since then been retired from the Certified Health IT Product List (CHPL). If all the following apply to you, MAPIR will bypass the online validation of the CMS EHR Certification ID, allowing you to use your 2011 Edition CEHRT ID:*

- Your Incentive application was started in MAPIR Release 5.5 or higher
- Your incentive application has a Program Year 2011 through 2014
- Your CEHRT ID entered is a 2011 Edition

*After Program Year 2014, MAPIR will no longer bypass the online validation described above.*

**Note**

A CMS EHR Certification ID can be obtained from the Office of the National Coordinator (ONC) Certified Health IT Product List (CHPL) website (<https://chpl.healthit.gov/>)

<b>Payment Year</b>	1	<b>Program Year</b>	2014

Click [here](#) if you would like to eliminate all information saved to date, and start over from the beginning.

---

**Navigation Keys within the system:**

- Save and Continue:** At the bottom of each screen, it is important that you utilize the Save & Continue button. This allows you to come back to your records after leaving a MAPIR session in the event you are unable to complete the entire registration at one time.
- Previous:** Allows you to move to the previous screen
- Reset:** Allows you to reset the values within the screen you are currently on.

Note: You will be able to review and edit all entered information before submitting.

## Step 2 – Confirm R&A and Contact Info

When you completed the R&A registration, your registration information was sent to the Connecticut Medicaid program. This section will ask you to confirm the information sent by the R&A and matched with the Connecticut Medicaid program information. It is important to review this information carefully. The R&A information can only be changed at the R&A but Contact Information can be changed at any time prior to application submission.

The initial **R&A/Contact Info** screen contains information about this section.

Click **Begin** to access the **R&A/Contact Info** screen to confirm information and to enter your contact information.

See the Using MAPIR section of this guide for information on using the **Print**, **Contact Us**, and **Exit** links.

The information you provided to the Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A) will be displayed in this section.

You will need to verify the accuracy of information provided by the Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A). If there are errors or discrepancies in the information, you need to return to the Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A) to make these updates prior to moving forward in the MAPIR application process.

The following link will take you to the Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A) to correct any errors noted: <https://ehrincentives.cms.gov/hitech/login.action>

Begin

Check your information carefully to ensure all of it is accurate.

Compare the R&A Registration ID you received when you registered with the R&A with the **R&A Registration ID** that is displayed.

After reviewing the information click **Yes** or **No**.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel back to the starting point. The Reset button will not reset the R&A information. If the R&A information is incorrect you will need to return to the R&A Web site to correct it.

**Eligibility** 
**Patient Volumes** 
**Attestation** 
**Review** 
**Submit**

To participate in the Medicaid Incentive Program, you must first provide some basic information to confirm your eligibility for the program.

In the Eligibility tab you will be asked:

- To confirm that your hospital intends to participate in the Connecticut Medicaid incentive program
- If your hospital has current Medicare or Medicaid sanctions
- If your hospital is HIPAA compliant

For more detailed information please refer to the Provider Manual for Eligible Hospitals (EHs)  
[Eligible Hospital User Manual](#)

**Begin**

Select **Yes** or **No** to the eligibility questions.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

You have now completed the **Eligibility** section of the application.

You may revisit the section at any time to make the corrections until such time as you actually **Submit** the application.

The **Patient Volumes** section of the application is now available.

Before submitting your application, please review the information that you have provided in this section, and all previous sections.

## Step 4 - Patient Volumes

The Patient Volumes section gathers information about your facility locations, the 90-day period you intend to use for reporting the Medicaid patient volume requirement, and the actual patient volumes. Additionally, you will be asked about how you utilize your certified EHR technology.

- An acute care hospital must have at least a 10 percent Medicaid patient volume for each year for which the hospital seeks an EHR incentive payment.
- A children’s hospital is exempt from meeting a patient volume threshold

There are three parts to the Patient Volumes section:

Part 1 of 3 establishes the 90-day period for reporting patient volumes. This 90-day period must be in the preceding fiscal year or in the 12 months preceding the attestation date by the total encounters in the same 90 day period. DSS encourages providers to select the previous fiscal year as a continuous 90-day volume reporting period to ensure a date range is selected that falls within the last completed fiscal year. Also, while MAPIR will allow providers to select 12 Months Preceding Attestation Date – CT cannot support that selection. Providers will be directed to select the last completed fiscal year preceding the payment year. Furthermore, EHs who select 12 months preceding attestations may experience a delay in payment.

Part 2 of 3 contains screens to enter locations for reporting **Medicaid Patient Volumes** and at least one location for **Utilizing Certified EHR Technology**, adding locations, and entering patient volumes for the chosen reporting period. You will be asked to enter the total CT Medicaid encounters in the continuous 90-day period in the preceding fiscal year and the total encounters in the same 90-day period.

Part 3 of 3 contains screens to enter your hospital **Patient Volume Cost Data** information. This information will be used to calculate your hospital incentive payment amount. This will be accessible in Year One only, this screen will already be completed in second payment year’s attestation and cannot be modified.

Hospitals will be required to provide and attest to the following information for the incentive payment to be calculated:

- Total Discharges (inpatient) for the most recent 4 fiscal years
- Total Number of Medicaid Inpatient Bed Days
- Total Number of Inpatient Bed Days
- Total Charges for all Inpatient and Outpatient (no exclusions\*)
- Total Charges for Charity Care for all Inpatient and Outpatient (no exclusions\*)

Note: All bed day totals and discharges should exclude nursery, psych and rehab days. \*Do not exclude nursery, psych and rehab from Charges.

*Children’s hospitals (separately certified children’s hospitals with CCNs in the 3300 – 3399 range) are not required to meet the 10% Medicaid patient volume requirement. Based on a hospital’s CCN, MAPIR will bypass these patient volume screens.*

The initial **Patient Volumes** screen contains information about this section.

If you represent a Children’s Hospital, click **Begin** to go to the **Patient Volume Cost Data (Part 3 of 3)**, section in this guide, to bypass entering patient volumes and adding locations.

**Note:** Children’s Hospitals will not see any patient volume related screens. If you are a Children’s Hospital please click [here](#) to advance to the next appropriate page in the user guide.

If you represent an Acute Care or Critical Access Hospital, click **Begin** to proceed to the **Patient Volume 90 Day Period (Part 1 of 3)** screen.

<b>Name</b>	MAPIR HOSPITAL	<b>NPI</b>	2011062207

To be eligible for a Medicaid EHR incentive payment the EH must meet the following criteria:

- An acute care hospital must have at least a 10 percent Medicaid patient volume for each year for which the hospital seeks an EHR incentive payment.
- A children's hospital is exempt from meeting a patient volume threshold.

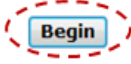

**Acute Care Hospitals:**  
 The Patient Volume section gathers information about your facility locations, the 90-day period you intend to use for meeting the Medicaid patient volume requirement, and the patient volumes themselves. A Medicaid enrolled acute care hospital must annually meet patient volume requirements.

Medicaid patient volume is calculated by dividing the total CT Medicaid encounters in any representative, continuous 90-day period either in the preceding fiscal year or in the 12 months preceding the attestation date by the total encounters in the same 90-day period.

- Enter the start date for the 90-day reporting period in which you will demonstrate the required Medicaid patient volume participation level.
- In order to meet the patient volume requirements of the Medicaid EHR Incentive Program you must provide information about your facility locations. MAPIR will present a list of facility locations that the Connecticut Medicaid program office has on record. If you have additional facility locations you will be given the opportunity to add them.

**Children's hospitals:**  
 Separately certified children's hospitals with CCNs with last four digits in the 3300 - 3399 range, are not required to meet the 10% Medicaid patient volume requirement. MAPIR will know based on your CCN to bypass the patient volume screen, click on **Begin** to bypass to Part 3 of this section.

[Eligible Hospital User Manual](#)

## Patient Volume (Part 1 of 3) – 90 Day Reporting Period

The Patient Volume 90 Day Period section collects information about the Medicaid Patient Volume reporting period. Enter the start date for the 90 day reporting period in which you will demonstrate the required Medicaid patient volume participation level. The start date is the first day of the continuous 90-day period for reporting patient volume in the preceding fiscal year or in the 12 months preceding the attestation date by the total encounters in the same 90 day period. DSS encourages you to select the previous fiscal year as a continuous 90-day volume reporting period to ensure a date range is selected that falls within the last completed fiscal year and then enter your start date.

**NOTE:** While MAPIR will allow providers to select 12 Months Preceding Attestation Date – CT cannot support that selection. Providers will be directed to select the last completed fiscal year preceding the payment year. Furthermore, EHs who select 12 months preceding attestations may result in a delay in payment.

**EXAMPLE:** If requesting an EHR Incentive payment for 2012, the start of your continuous 90-day period must start and end between October 1, 2010 and September 30, 2011, the preceding fiscal year.

Enter a **Start Date** or select one from the calendar icon located to the right of the **Start Date** field.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel back to the starting point or last saved values.

**End Date:** May 05, 2012

**Previous** **Save & Continue**

### Patient Volume (Part 2 of 3) - Location

Once you have determined what time period to report patient volumes, MAPIR will display your practice location(s) on file with the Connecticut Medical Assistance program office according to the NPI entered in your CMS R&A Registration. You must select at least one location where you are meeting Medicaid patient volume thresholds AND you are utilizing EHR technology. The information will be used to determine your eligibility for the incentive program.

For purposes of calculating hospital patient volume a Medicaid encounter means–

- Services rendered to a HUSKY A, HUSKY C or HUSKY D individual per inpatient discharge where HUSKY A, HUSKY C or HUSKY D paid for part or all of the service, or paid for part or all of the individual's premiums, co-payments and/or cost-sharing
- Services rendered in an emergency department (ED) in any one day where HUSKY A, HUSKY C or HUSKY D paid for part or all of the service, or paid for part or all of the individual's premiums, co-payments and/or cost-sharing.

NOTE: Some hospitals use different NPIs for their inpatient and outpatient services. Only their inpatient NPI/AVRS ID will show in MAPIR. In order to include emergency department services a provider may need to add the outpatient facility location to MAPIR.

If you have additional locations that you need in order to enter Patient Volume information you will be given the opportunity to add them. Once all locations are added, you will enter the required Patient Volume information. All locations added to MAPIR should be under the same Centers for Medicare and Medicaid Programs (CMS) Certification Number (CCN) entered on your CMS R&A Registration.

In order to meet the requirements of the Medicaid EHR Incentive Program, you must provide information about your facility. The information will be used to determine your eligibility for the incentive program.

Review the listed locations. Add new locations by clicking **Add Location**.

Part 2 of 3 of the Patient Volumes section: Once all locations are added, you will enter the required Patient Volume information for the 90 days selected for each location and at least one location where you are **Utilizing Certified EHR Technology**. For purposes of calculating hospital patient volume a Medicaid encounter means:

- Services rendered to an individual enrolled in HUSKY A, HUSKY C (previously known as Medicaid FFS) or HUSKY D (previously known as MLIA) program per inpatient discharge; or,
- Services rendered in an emergency department (ED) on any one day to an individual enrolled in HUSKY A, HUSKY C (previously known as Medicaid FFS) or HUSKY D (previously known as MLIA) program

Part 3 of 3 of the Patient Volumes section: Enter your hospital **Patient Volume Cost Data** information. This information will be used to calculate your hospital incentive payment amount. You will be required to enter the following information:

- Total Discharges (inpatient) for the most recent 4 fiscal years
- Total Number of Medicaid Inpatient Bed Days \*
- Total Number of Inpatient Bed Days
- Total Charges for All Discharges
- Total Charges for Charity Care for all discharges

\*In computing inpatient-bed-days the hospital may not include inpatient-bed-days where payment was made under Medicare Part A, or inpatient-bed-days attributable to individuals who are enrolled with a Medicare Advantage organization under Medicare Part C.

**NOTE:** Nursery bed-days and discharges cannot be included in your cost data.

### Hospital Cost Report Data – Fiscal Year (Part 3 of 3)

The following screens will request Patient Volume Cost Data. This information will be used to calculate your hospital incentive payment amount when completing the **hospital's first year attestation**. The total hospital incentive payment is calculated in your first payment year and distributed over three years by Connecticut Medical Assistance program. To receive subsequent year payments you must only attest to the eligibility requirements, patient volume requirements (except Children's hospitals), and meaningful use each year.

Enter the **Start Date** of the hospital fiscal year that ends during the prior Federal fiscal year to the fiscal year that serves as the first payment year, or select one from the calendar icon located to the right of the Start Date field.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

**Year 2 and subsequent years will see their Cost Data as it was submitted in Year 1. This data was used to calculate their total hospital incentive payment for all three years. Modifications must not be made to this data unless there was a change in the year one data that should result in change in payment.**

If you would like to change the hospital cost data, refer to the [Change Hospital Cost Report Data](#) section of this manual. If you would like to proceed using the existing hospital cost data from the previous paid application, click **Save & Continue**.

If you are accessing MAPIR for the first time and received one or more incentive payments from another state, the Hospital Cost Data (Part 3 of 3) screen will display zeroes. You will not be able to enter data. After submitting your application, contact the EHR Assistance Center either by email at [ctmedicaid-ehr@dxc.com](mailto:ctmedicaid-ehr@dxc.com) or by phone at 1-855-313-6638 (toll free).

## Change Hospital Cost Report Data

When you have applied since the start of the program in the same state and your payment year is 2 or higher, MAPIR allows you to revise previously entered hospital cost report data. The Hospital Cost Report Data screen will display the data from the previously paid application. The revised hospital cost report data that you enter will be referenced when MAPIR calculates your total EHR incentive amount, overriding any amount for previous years. When viewing any previous applications, MAPIR will continue to display the cost report data that was entered originally for reference purposes only. The fiscal years entered on the payment year 1 application cannot be changed.

From the Hospital Cost Report Data screen, click **Change Data**.

You have now completed the **Patient Volumes** section of the application.

You may revisit the section at any time to make corrections until such time as you actually **Submit** the application.

The **Attestation** section of the application is now available.

Before submitting your application, please review the information that you have provided in this section, and all previous sections.

## Step 5 – Attestation

This section will ask you to provide information about your **EHR System Adoption Phase**. Adoption phases include **Adoption, Implementation, Upgrade, and Meaningful Use**. Based on the adoption phase you select, you may be asked to complete additional information about activities related to that phase.

For the first year of participation in the Medicaid EHR Incentive program, Eligible Hospitals will have the option to attest to **Adoption, Implementation, Upgrade, or Meaningful Use**. After the first year of participation, the Eligible Hospitals are required to attest to **Meaningful Use**.

This initial Attestation screen provides information about this section.

Click **Begin** to continue to the **Attestation** section.

You have the option of choosing Adopt, Implement, Upgrade or Meaningful Use attestation in your first year of attestation. Dually eligible hospitals are required to attest at CMS for Meaningful Use. Once approved by CMS, your next step would be to complete the MAPIR application. Children's Hospitals that have already completed the AIU attestation in the first payment year are required to choose Meaningful Use with Medicaid.

Please refer to the **Eligible Hospital Provider Manual** for additional guidance on Adopt, Implement, Upgrade and Meaningful Use: [Eligible Hospital User Manual](#)

You may also refer to the CMS Web site at : [http://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/Meaningful\\_Use.html](http://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/Meaningful_Use.html)

In Part 2 of 3:  
If you selected Implement or Upgrade in Part 1 of 3, you will need to indicate whether tasks are Planned/In Progress or Complete. If Meaningful Use is selected then the hospital will attest to a 90 day period for the first year of Meaningful Use and a full year during the second or third year attestation.

In Part 3 of 3 verify payment designation:  
Eligible hospitals must confirm that they are an acute care hospital or children's hospital. The address of the payee that you designated must also be confirmed.

Once your attestation is complete, you will go to the Review tab. You still have the opportunity to review and revise your application until you submit.

**IN ORDER TO SUBMIT YOUR APPLICATION YOU MUST CLICK THE SUBMIT TAB ONCE YOU HAVE COMPLETED ENTERING YOUR INFORMATION.**

If you are a Dually Eligible Hospital, but have not been approved for Meaningful Use Attestation during the current Program Year at the CMS Medicare & Medicaid EHR Incentive Program Registration and Attestation System (R&A), you will not be permitted to proceed with the MAPIR application process until you have completed this process at the R&A.

Click **Exit** to exit the MAPIR application or select any of the previously completed tabs.

## Attestation Phase (Part 1 of 3)

The Attestation Phase (Part 1 of 3) screen asks for the **EHR System Adoption Phase**.

The screen shown below is the Attestation Phase (Part 1 of 3) screen you will see if it is your first year participating (Payment Year 1).

If it is not your first year participating (Payment Year 2 or beyond), turn to the [Meaningful Use Phase](#) section of this guide.

**NOTE: Dually-eligible hospitals will not see this screen since MU attestation is done at the CMS R&A Web site.** If you have registered at the R&A as a Dually Eligible hospital and are Deemed Eligible, you will bypass Attestation. Proceed to the [Attestation Phase \(Part 3 of 3\)](#) section of this guide.

After making your selection, the next screen you see will depend on the phase you selected.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

The Medicaid EHR Incentive Program was originally planned to roll out in three stages with increasing requirements for participation. All EHs begin participating by meeting the Stage 1 requirements for a 90-day period in their first year of Meaningful Use and a full year in their second year of Meaningful Use (except for Program Year 2014 and 2015).

CMS announced Modified Stage 2 Rule for Meaningful Use in October 2014 to go into effect for Program Year 2015. The Modified Stage 2 Rule outlines different requirements for EHs scheduled to be in Stage 1 or Stage 2 for Program Years 2015 and 2016.

- If the EH was scheduled to be in Stage 1 in Program Year 2015, the Modified Stage 2 provides Alternate Measures and/or Alternate Exclusions for certain objectives.
- If the EH was scheduled to be in Stage 1 in Program Year 2016, the Modified Stage 2 provides Alternate Exclusions for certain objectives.

These Meaningful Use Requirements for EHs for the two program years are addressed in different sections of this manual. This screen displays the General Requirement question that needs to be completed in order to proceed with the attestation.

Click **Yes** or **No** to the first question.

Click **Save & Continue** to proceed to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

Submit

**Meaningful Use Objectives 1-8:** The following section includes 8 of the 9 Objectives. Some Objectives include multiple measures. As part of the Meaningful Use Attestation, Eligible Hospitals (EHs) are required to complete all 9 Objectives. Certain Objectives do provide Exclusions, Alternate Exclusions, or Alternate Measures. If an EH meets the criteria for the Exclusion or Alternate Exclusion, then the EH can claim that Exclusion during Attestation.

**Helpful Hints:**

1. The Meaningful Use Objectives, Required Public Health Objective, and the Clinical Quality Measures (CQMs) can be completed in any order.
2. For more details on each objective, select the '**CLICK HERE**' link at the top of each screen.
3. Objective results **DO NOT** round up. For example, a numerator of 199 and a denominator of 1000 is 19%. Results are **ONLY displayed** in whole numbers.
4. Objectives that require a result of greater than a given percentage (%) must be more than that percentage (%) to pass. For example, in a measure requiring a result of greater than 80%, a result of 80.1% will pass but a result of exactly 80% would not pass.
5. The checkmark means the section is completed but does not mean you passed or failed the objective.
6. You may review the completed objectives by selecting the '**EDIT**' button.
7. Evaluation of Meaningful Use Objectives is made after the application is electronically signed. You will receive a message if the objectives are not met. If any objectives are not met, you will have an opportunity to change and electronically sign again.

**Instructions:** Users may adequately answer each measure they intend to meet by correctly completing the numerator and denominator, answering yes or no to the objective, or choosing an exclusion if they meet the requirements for that exclusion. Use the data obtained from your EHR system for the attestation period. When completing your application you will be prompted to upload a copy of your supporting EHR Objectives into your application. Excel, Word and PDF format files, each file no greater than 10 Mega Bytes (MB) in size, can be uploaded into MAPIR.

<b>Payment Year</b>	1	<b>Program Year</b>	2015

### Attestation Meaningful Use Objectives

To edit information, select the **"EDIT"** button next to the objective that you would like to edit. All successfully submitted progress on entry of measures will be retained if your session is terminated.

When all objectives have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

### Meaningful Use Objective List Table

Objective Number	Objective	Measure	Entered	Select
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the eligible hospital or CAH's risk management process.		<input type="button" value="EDIT"/>
Objective 2	You must choose an option for this objective. Select the EDIT button to continue.			<input type="button" value="EDIT"/>
Objective 3	You must choose an option for this objective. Select the EDIT button to continue.			<input type="button" value="EDIT"/>
Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.		<input type="button" value="EDIT"/>

Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.		<a href="#">EDIT</a>
Objective 6	Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.		<a href="#">EDIT</a>
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	The eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).		<a href="#">EDIT</a>
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information. For an EHR reporting period in 2015, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her information during the EHR reporting period.		<a href="#">EDIT</a>

**Attestation Meaningful Use Objectives**

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed.

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
	Meaningful Use Objectives (1-8)	8/8	<div style="display: flex; gap: 5px;"> <span style="border: 1px solid #ccc; padding: 2px 5px;">EDIT</span> <span style="border: 1px solid #ccc; padding: 2px 5px;">Clear All</span> </div>
	Required Public Health Objective (9)		<div style="border: 1px solid #ccc; padding: 2px 5px; border-radius: 5px; display: inline-block;">Begin</div>
	Clinical Quality Measures		<div style="border: 1px solid #ccc; padding: 2px 5px; border-radius: 5px; display: inline-block;">Begin</div>

**Note:**  
When all topics are marked as completed, select the **"Save & Continue"** button to complete the attestation process.

## 2015 Modified Stage 2 with Alternates MU Required Public Health Objective (9) – for Hospitals previously scheduled to be in Stage 1

This initial screen provides information about the Required Public Health Objective for 2015 Modified Stage 2 with Alternates.

Click **Begin** to continue to the Meaningful Use Menu Measure Selection screen.

<b>Name</b>	MAPIR HOSPITAL	<b>NPI</b>	2011062207
<b>CCN</b>	070098	<b>Hospital TIN</b>	[REDACTED]
<b>Payment Year</b>	3	<b>Program Year</b>	2015

**Required Public Health Objective 9:** As part of the Meaningful Use Attestation, an Eligible Hospital (EH) who is scheduled to be in Stage 1 in 2015 is required to attest to two (2) Public Health Options. If you cannot successfully attest to one (1) of the two (2) selected Options, then you must qualify for an Exclusion or Alternate Exclusion from the remaining Options to pass the Public Health Objective.

In the next section, you will select two (2) options for Attestation. There are multiple Exclusions for each Public Health Options. See the [Eligible Hospital Public Health Reporting specification sheet](#) for a complete list.

**EHS choosing Modified Stage 2 with Alternates:**

- Must attest to at least 2 Options from the Public Health Reporting Options 1-4.
- Option 3 (Specialized Registry) may be reported more than once.
- If you cannot successfully attest to any Option then you must qualify for an exclusion or Alternate Exclusion for all Options to pass the Public Health Objective.
- May claim up to three (3) Alternate Exclusions for the Public Health Objective for Option 1 (Immunization), Option 2 (Syndromic Surveillance), Option 3 (Specialized Registry) or Option 4 (Reportable Laboratory).

**Helpful Hints:**

1. For more details on each objective, select '**CLICK HERE**' link at the top of each screen.
2. The checkmark means the section is completed but does not mean you passed or failed the objectives.
3. You may review the completed objectives by selecting the '**EDIT**' button.
4. Evaluation of the Public Health Objective is made after the application is electronically signed. You will receive a message if the objective is not met. If the objective is not met, you will have an opportunity to change and electronically sign again.

## Required Public Health Objective Selection

Instructions for passing the Required Public Health Objective are provided on screen.

Click **Save & Continue** to review your selection, click **Previous** to go back, or click **Reset** to restore this panel to the starting point or last saved data.

<b>Name</b>	Medical Hospital	<b>NPI</b>	999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	999999999
<b>Payment Year</b>	1	<b>Program Year</b>	2015

**Attestation Meaningful Use Objectives**

You must attest to 2 Public Health options. If you are unable to attest to 2 options, you must attest or take an exclusion on all 4 options.  
 Note: Option 3 may be attested to three times but only 3A can be excluded.

When all options have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

Objective Number	Objective	Measure	Select
Objective 9 Option 1	The eligible hospital or CAH is in active engagement with an immunization registry or immunization information systems to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 1 - Immunization Registry Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit immunization data.	<input checked="" type="checkbox"/>
Objective 9 Option 2	The eligible hospital or CAH is in active engagement with a syndromic surveillance registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 2 - Syndromic Surveillance Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit syndromic surveillance data.	<input checked="" type="checkbox"/>

**Attestation Meaningful Use Objectives**

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed.

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
	Meaningful Use Objectives (1-8)		<input type="button" value="Begin"/>
	Required Public Health Objective (9)		<input type="button" value="Begin"/>
	Clinical Quality Measures		<input type="button" value="Begin"/>

**Note:**  
When all topics are marked as completed, select the **"Save & Continue"** button to complete the attestation process.

## Meaningful Use Objectives

The screen below displays the Measures Topic List. The Attestation Meaningful Use Objectives are divided into three distinct topics: Meaningful Use Objectives (1-8), Required Public Health Objective (9) and Clinical Quality Measures.

You may select any of the three topics and complete them in any order. All three topics must be completed.

Click **Begin** to start a topic.

## Meaningful Use Objectives (1-8)

This screen provides information about the Meaningful Use Objectives for 2015 Modified Stage 2.

Please note that the Meaningful Use Core Measures have been replaced with Meaningful Use Objectives (1-8). This applies to hospitals who were scheduled to be in Stage 2 in the 2015 program year.

Click **Begin** to continue to the Meaningful Use Objective List Table.

<b>Name</b>	MAPIR HOSPITAL	<b>NPI</b>	2011062207
<b>CCN</b>	070098	<b>Hospital TIN</b>	██████████

**Meaningful Use Objectives 1-8:** The following section includes 8 of the 9 Objectives. Some Objectives include multiple measures. As part of the Meaningful Use Attestation, Eligible Hospitals (EHs) are required to complete all 9 Objectives. Certain Objectives do provide Exclusions, Alternate Exclusions, or Alternate Measures. If an EH meets the criteria for the Exclusion or Alternate Exclusion, then the EH can claim that Exclusion during Attestation.

**Helpful Hints:**

1. The Meaningful Use Objectives, Required Public Health Objective, and the Clinical Quality Measures (CQMs) can be completed in any order.
2. For more details on each objective, select the '**CLICK HERE**' link at the top of each screen.
3. Objective results **DO NOT** round up. For example, a numerator of 199 and a denominator of 1000 is 19%. Results are **ONLY displayed in** whole numbers.
4. Objectives that require a result of greater than a given percentage (%) must be more than that percentage (%) to pass. For example, in a measure requiring a result of greater than 80%, a result of 80.1% will pass but a result of exactly 80% would not pass.
5. The checkmark means the section is completed but does not mean you passed or failed the objective.
6. You may review the completed objectives by selecting the '**EDIT**' button.
7. Evaluation of Meaningful Use Objectives is made after the application is electronically signed. You will receive a message if the objectives are not met. If any objectives are not met, you will have an opportunity to change and electronically sign again.

**Instructions:** Users may adequately answer each measure they intend to meet by correctly completing the numerator and denominator, answering yes or no to the objective, or choosing an exclusion if they meet the requirements for that exclusion. Use the data obtained from your EHR system for the attestation period. When completing your application you will be prompted to upload a copy of your supporting EHR Objectives into your application. Excel, Word and PDF format files, each file no greater than 10 Mega Bytes (MB) in size, can be uploaded into MAPIR.

**Attestation Meaningful Use Objectives**

To edit information, select the **"EDIT"** button next to the objective that you would like to edit. All successfully submitted progress on entry of measures will be retained if your session is terminated.

When all objectives have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

---

**Meaningful Use Objective List Table**

Objective Number	Objective	Measure	Entered	Select
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the eligible hospital or CAH's risk management process.		<input type="button" value="EDIT"/>
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an eligible hospital or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high priority health conditions. The eligible hospital or CAH has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.		<input type="button" value="EDIT"/>

Objective 3	Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 60 percent of medication orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of laboratory orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of radiology orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.		<a href="#">EDIT</a>
Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.		<a href="#">EDIT</a>
Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.		<a href="#">EDIT</a>
Objective 6	Use clinically relevant information from the Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.		<a href="#">EDIT</a>
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	The eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).		<a href="#">EDIT</a>
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information. For an EHR reporting period in 2015, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her information during the EHR reporting period.		<a href="#">EDIT</a>

Measure = No	<input type="button" value="EDIT"/>
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an eligible hospital or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high priority health conditions. The eligible hospital or CAH has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.	Measure 1 = No Measure 2 = No	<input type="button" value="EDIT"/>
Objective 3	Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 60 percent of medication orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of laboratory orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of radiology orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.	Patient Records = Only EHR  Measure 1 Numerator 1 = 500 Denominator 1 = 1000  Measure 2 Numerator 2 = 500 Denominator 2 = 1000  Measure 3 Numerator 3 = 500 Denominator 3 = 1000	<input type="button" value="EDIT"/>
Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.	Patient Records = All  Exclusion = No Alternate Exclusion = No Numerator = 500 Denominator = 1000	<input type="button" value="EDIT"/>

This is screen 2 of 2 of the Meaningful Use Objective List Table.

Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.	Alternate Exclusion = No Numerator = 500 Denominator = 1000	<input type="button" value="EDIT"/>
Objective 6	Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.	Alternate Exclusion = Excluded	<input type="button" value="EDIT"/>
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	The eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).	Alternate Exclusion = Excluded	<input type="button" value="EDIT"/>
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information. For an EHR reporting period in 2015, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her information during the EHR reporting period.	Measure 1 Numerator 1 = 500 Denominator 1 = 1000  Measure 2 Measure 2 Exclusion = Excluded	<input type="button" value="EDIT"/>

If all objectives were entered and saved, a check mark will display under the Completed column for the topic as displayed in the example below. You can continue to edit the topic measure after it has been marked complete.

Click the **Edit** button to further edit the topic, or click **Clear All** to clear the topic information you entered. Click **Begin** to start the next topic.

To access the Required Public Health Objective, click the **Begin** button on the Meaningful Use Objectives Dashboard.

<b>Name</b>	Medical Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	9999999999

**Attestation Meaningful Use Objectives**

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed.

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

<u>Completed?</u>	<u>Topics</u>	<u>Progress</u>	<u>Action</u>
	Meaningful Use Objectives (1-8)	8/8	<input type="button" value="EDIT"/> <input type="button" value="Clear All"/>
	Required Public Health Objective (9)		<input type="button" value="Begin"/>
	Clinical Quality Measures		<input type="button" value="Begin"/>

**Note:**  
When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

## 2015 Modified Stage 2 MU Required Public Health Objective (9) – for Hospitals previously scheduled to be in Stage 2

This initial screen provides information about the Required Public Health Objective for 2015 Modified Stage 2. Click **Begin** to continue to the Meaningful Use Menu Measure Selection screen.

<b>Name</b>	MAPIR HOSPITAL	<b>NPI</b>	2011062207

**Required Public Health Objective 9:** As part of the Meaningful Use Attestation, Eligible Hospitals are required to attest to three (3) Public Health Options. If you cannot successfully attest to any one (1) of the three (3) selected Options, then you must qualify for an Exclusion or Alternate Exclusion from the remaining Options to pass the Public Health Objective.

In the next section, you will select three (3) options for Attestation. There are multiple Exclusions for each Public Health Options. See the [Eligible Hospital Public Health Reporting specification sheet](#) for a complete list.

**EHS choosing Modified Stage 2:**

- Must attest to at least 3 Options from the Public Health Reporting Options 1-4.
- Option 3 (Specialized Registry) may be reported three times as Objective 9 Option 3A, Objective 9 Option 3B and Objective 9 Option 3C.
- If you cannot successfully attest to any Option then you must qualify for an exclusion for all Options to pass the Public Health Objective.
- May claim an alternate exclusion Measure 3A (Specialized Registry).

**Helpful Hints:**

1. For more details on each objective, select '**CLICK HERE**' link at the top of each screen.
2. You may review the completed objectives by selecting the '**EDIT**' button.
3. After completing the Public Health Objective, you will receive a checkmark indicating the section is completed but this does not mean you passed or failed the objective.
4. Evaluation of the Public Health Objective is made after the application is electronically signed. You will receive a message if the objective is not met. If the objective is not met, you will have an opportunity to change and electronically sign again.

## Required Public Health Objective Selection

Instructions for passing the Required Public Health Objective are provided on screen.

Click **Save & Continue** to review your selection, click **Previous** to go back, or click **Reset** to restore this panel to the starting point or last saved data.

<b>Name</b>	Medical Hospital	<b>NPI</b>	9999999999

<b>Payment Year</b>	4	<b>Program Year</b>	2015

### Attestation Meaningful Use Objectives

You must attest to 3 Public Health options. If you are unable to attest to 3 options, you must attest or take an exclusion on all 4 options. Note: Option 3 may be attested to three times but only 3A can be excluded.

When all options have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

Objective Number	Objective	Measure	Select
Objective 9 Option 1	The eligible hospital or CAH is in active engagement with an immunization registry or immunization information systems to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 1 - Immunization Registry Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit immunization data.	<input checked="" type="checkbox"/>
Objective 9 Option 2	The eligible hospital or CAH is in active engagement with a syndromic surveillance registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 2 - Syndromic Surveillance Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit syndromic surveillance data.	<input checked="" type="checkbox"/>
Objective 9 Option 3A	The eligible hospital or CAH is in active engagement with a specialized registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 3 - Specialized Registry Reporting: The eligible hospital or CAH is in active engagement to submit data to a specialized registry.	<input checked="" type="checkbox"/>
Objective 9 Option 3B	The eligible hospital or CAH is in active engagement with a specialized registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 3 - Specialized Registry Reporting: The eligible hospital or CAH is in active engagement to submit data to a specialized registry.	<input checked="" type="checkbox"/>
Objective 9 Option 3C	The eligible hospital or CAH is in active engagement with a specialized registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 3 - Specialized Registry Reporting: The eligible hospital or CAH is in active engagement to submit data to a specialized registry.	<input checked="" type="checkbox"/>
Objective 9 Option 4	The eligible hospital or CAH is in active engagement with a public health agency to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Option 4 - Electronic Reportable Laboratory Result Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit electronic reportable laboratory (ELR) results.	<input checked="" type="checkbox"/>

### Attestation Meaningful Use Objectives

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed. ✓

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a ✓ is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
✓	Meaningful Use Objectives (1-8)	8/8	<input type="button" value="EDIT"/> <input type="button" value="Clear All"/>
✓	Required Public Health Objective (9)	6/6	<input type="button" value="EDIT"/> <input type="button" value="Clear All"/>
	Clinical Quality Measures		<input type="button" value="Begin"/>

**Note:**  
When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

## 2016 Modified Stage 2 with Alternates Objectives – for Hospitals previously scheduled to be in Stage 1

The screen on the following page displays the Attestation Meaningful Use Objectives topic list and Clinical Quality Measures list. The Attestation Meaningful Use Objectives are divided into three distinct topics: Meaningful Use Objectives (1-8), Required Public Health Objective (9) and Clinical Quality Measures.

While it is not required that you begin each topic in the order shown on the screen, this user guide will follow the order in which the topics are listed.

Click **Begin** to start a topic.

### Attestation Meaningful Use Objectives

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed.

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
	Meaningful Use Objectives (1-8)		<input type="button" value="Begin"/>
	Required Public Health Objective (9)		<input type="button" value="Begin"/>
	Clinical Quality Measures		<input type="button" value="Begin"/>

**Note:**  
When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

## Meaningful Use Objectives (1-8)

This screen provides information about the Meaningful Use Objectives for 2016 Modified Stage 2 with Alternates. This applies to hospitals who were scheduled to be in Stage 1 in the 2016 program year.

Please note that the Meaningful Use Core Measures have been replaced with Meaningful Use Objectives (1-8).

Click **Begin** to continue to the Meaningful Use Objective List Table.

<b>Name</b>	MAPIR HOSPITAL	<b>NPI</b>	2011062207

**Meaningful Use Objectives 1-8:** The following section includes 8 of the 9 Objectives. Some Objectives include multiple measures. As part of the Meaningful Use Attestation, Eligible Hospitals (EHs) are required to complete all 9 Objectives. Certain Objectives do provide Exclusions, Alternate Exclusions, or Alternate Measures. If an EH meets the criteria for the Exclusion or Alternate Exclusion, then the EH can claim that Exclusion during Attestation.

**Helpful Hints:**

1. The Meaningful Use Objectives, Required Public Health Objective, and the Clinical Quality Measures (CQMs) can be completed in any order.
2. For more details on each objective, select the '**CLICK HERE**' link at the top of each screen.
3. Objective results **DO NOT** round up. For example, a numerator of 199 and a denominator of 1000 is 19%. Results are **ONLY displayed in** whole numbers.
4. Objectives that require a result of greater than a given percentage (%) must be more than that percentage (%) to pass. For example, in a measure requiring a result of greater than 80%, a result of 80.1% will pass but a result of exactly 80% would not pass.
5. The checkmark means the section is completed but does not mean you passed or failed the objective.
6. You may review the completed objectives by selecting the '**EDIT**' button.
7. Evaluation of Meaningful Use Objectives is made after the application is electronically signed. You will receive a message if the objectives are not met. If any objectives are not met, you will have an opportunity to change and electronically sign again.

**Instructions:** Users may adequately answer each measure they intend to meet by correctly completing the numerator and denominator, answering yes or no to the objective, or choosing an exclusion if they meet the requirements for that exclusion. Use the data obtained from your EHR system for the attestation period. When completing your application you will be prompted to upload a copy of your supporting EHR Objectives into your application. Excel, Word and PDF format files, each file no greater than 10 Mega Bytes (MB) in size, can be uploaded into MAPIR.

Begin

## Meaningful Use Objective List Table

The screen on the following page displays the Meaningful Use Objective List Table.

The first time a topic is accessed you will see an **Edit** option for each measure.

Once information is successfully entered and saved for a measure it will be displayed in the **Entered** column on this screen.

Click **Edit** to enter or edit information for a measure, or click **Return to Main** and return to the Topic List.

Screen 1 of 2

<b>Name</b>	MAPIR Medical Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	999999999
<b>Payment Year</b>	2	<b>Program Year</b>	2016

**Attestation Meaningful Use Objectives**

To edit information, select the **"EDIT"** button next to the objective that you would like to edit. All successfully submitted progress on entry of measures will be retained if your session is terminated.

When all objectives have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

Meaningful Use Objective List Table				
Objective Number	Objective	Measure	Entered	Select
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the eligible hospital or CAH's risk management process.		<input type="button" value="EDIT"/>
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an eligible hospital or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high priority health conditions. The eligible hospital or CAH has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.		<input type="button" value="EDIT"/>

Screen 2 of 2

Objective 3	Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 60 percent of medication orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of laboratory orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of radiology orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.		<a href="#">EDIT</a>
Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.		<a href="#">EDIT</a>
Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.		<a href="#">EDIT</a>
Objective 6	Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.		<a href="#">EDIT</a>
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	The eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).		<a href="#">EDIT</a>
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information. For an EHR reporting period in 2016, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her health information during the EHR reporting period.		<a href="#">EDIT</a>

Objective: Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.

**Measure 1:** More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information.

**Numerator 1:** The number of patients in the denominator who have access to view, download, and transmit their health information within 36 hours after the information is available to the eligible hospital or CAH.

**Denominator 1:** Number of unique patients discharged from an eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period.

\* Numerator 1:  \* Denominator 1:

**Measure 2 Exclusion:** Any hospital or CAH that is located in a county that does not have 50 percent or more of its housing units with 4Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period.

\*Does the exclusion apply to you? If 'Yes', do not complete Measure 2. If 'No', complete entries for Measure 2.

Yes  No

**Measure 2:** For an EHR reporting period in 2016, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her health information during the EHR reporting period.

**Numerator 2:** The number of patients (or patient-authorized representative) in the denominator who view, download, or transmit to a third party their health information.

**Denominator 2:** Number of unique patients discharged from the inpatient or emergency department (POS 21 or 23) of the eligible hospital or CAH during the EHR reporting period.

Numerator 2:  Denominator 2:

The information you entered for that measure will be displayed in the Entered column of the table as shown in the example below (please note that the entire screen is not displayed in this example).

<b>Name</b>	MAPIR Medical Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	999999999
<b>Payment Year</b>	2	<b>Program Year</b>	2016

**Attestation Meaningful Use Objectives**

To edit information, select the **"EDIT"** button next to the objective that you would like to edit. All successfully submitted progress on entry of measures will be retained if your session is terminated.

When all objectives have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

**Meaningful Use Objective List Table**

Objective Number	Objective	Measure	Entered	Select
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the eligible hospital or CAH's risk management process.	Measure = No	<input type="button" value="EDIT"/>
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an eligible hospital or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high priority health conditions. The eligible hospital or CAH has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.		<input type="button" value="EDIT"/>

You can continue to edit the measures at any point prior to submitting the application.

Click **Edit** for the next measure.

Click **Return to Main** and return to the Attestation Meaningful Use Objectives screen.

Measure 1 = No Measure 2 = No	<input type="button" value="EDIT"/>

This is screen 2 of 2 of the Meaningful Use Objective List Table.

Objective 3	Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 60 percent of medication orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of laboratory orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of radiology orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.	Patient Records = Only EHR  Measure 1 Numerator 1 = 500 Denominator 1 = 1000  Measure 2 Alternate Exclusion 2 = No Numerator 2 = 500 Denominator 2 = 1000  Measure 3 Alternate Exclusion 3 = No Numerator 3 = 500 Denominator 3 = 1000	<a href="#">EDIT</a>
Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.	Patient Records = All  Exclusion = No Alternate Exclusion = No Numerator = 500 Denominator = 1000	<a href="#">EDIT</a>
Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.	Numerator = 500 Denominator = 1000	<a href="#">EDIT</a>
Objective 6	Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.	Numerator = 500 Denominator = 1000	<a href="#">EDIT</a>
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	The eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).	Numerator = 500 Denominator = 1000	<a href="#">EDIT</a>
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information. For an EHR reporting period in 2016, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her health information during the EHR reporting period.	Measure 1 Numerator 1 = 500 Denominator 1 = 1000  Measure 2 Measure 2 Exclusion = No Numerator 2 = 500 Denominator 2 = 1000	<a href="#">EDIT</a>

### Attestation Meaningful Use Objectives

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed. ✓

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a ✓ is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
✓	Meaningful Use Objectives (1-8)	8/8	<input type="button" value="EDIT"/> <input type="button" value="Clear All"/>
	Required Public Health Objective (9)		<input type="button" value="Begin"/>
	Clinical Quality Measures		<input type="button" value="Begin"/>

**Note:**  
When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

## 2016 Modified Stage 2 with Alternates MU Required Public Health Objective (9) – for Hospitals previously scheduled to be in Stage 1

This initial screen provides information about the Required Public Health Objective for 2016 Modified Stage 2 with Alternates.

Click **Begin** to continue to the Meaningful Use Menu Measure Selection screen.

**Required Public Health Objective 9:** As part of the Meaningful Use Attestation, Eligible Hospitals are required to attest to three (3) Public Health Options. If you cannot successfully attest to any one (1) of the three (3) selected Options, then you must qualify for an Exclusion or Alternate Exclusion from the remaining Options to pass the Public Health Objective.

In the next section, you will select three (3) options for Attestation. There are multiple Exclusions for each Public Health Options. See the [Eligible Hospital Public Health Reporting specification sheet](#) for a complete list.

**EHS choosing Modified Stage 2:**

- Must attest to at least 3 Options from the Public Health Reporting Options 1-4.
- Option 3 (Specialized Registry) may be reported three times as Objective 9 Option 3A, Objective 9 Option 3B and Objective 9 Option 3C.
- If you cannot successfully attest to any Option then you must qualify for an exclusion for all Options to pass the Public Health Objective.
- May claim an alternate exclusion Measure 3A (Specialized Registry).

**Helpful Hints:**

1. For more details on each objective, select '**CLICK HERE**' link at the top of each screen.
2. You may review the completed objectives by selecting the '**EDIT**' button.
3. After completing the Public Health Objective, you will receive a checkmark indicating the section is completed but this does not mean you passed or failed the objective.
4. Evaluation of the Public Health Objective is made after the application is electronically signed. You will receive a message if the objective is not met. If the objective is not met, you will have an opportunity to change and electronically sign again.

**Objective 9 Option 4 - Electronic Reportable Laboratory Results Reporting**

**i** Click [HERE](#) to review CMS Guidelines for this measure.

When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

**(\*) Red asterisk indicates a required field.**

**Objective:** The eligible hospital or CAH is in active engagement with a public health agency to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.

**Measure:** Option 4 - Electronic Reportable Laboratory Result Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit electronic reportable laboratory (ELR) results.

\*Does this option apply to you?  
 Yes  No

**Active Engagement Options:** If you have answered 'Yes' above, please select one of the options listed below.

Completed registration to submit data

Testing and validation

Production

**EXCLUSION:** If Option 4 is 'No', then ALL of the Exclusions listed below must be answered. You may only select 'Yes' for one exclusion. Any eligible hospital or CAH that meets one of the following criteria may be excluded from the objective.

Does not perform or order laboratory tests that are reportable in their jurisdiction during the EHR reporting period.  
 Yes  No

Operates in a jurisdiction for which no public health agency is capable of accepting the specific ELR standards required to meet the Certified EHR Technology definition at the start of the EHR reporting period.  
 Yes  No

Operates in a jurisdiction where no public health agency has declared readiness to receive electronic reportable laboratory results from eligible hospitals or CAHs at the start of the EHR reporting period.  
 Yes  No

After you enter information for an option for Objective 9 and click **Save & Continue**, you will return to the Required Public Health Objective List Table. The information you entered for that Objective 9 option will be displayed in the Entered column of the table as shown in the example below.

**Note:** Click the **Edit** button in the Select column any point prior to submitting the application to edit an Objective 9 option.

Once you have attested to all the Objective 9 options, click **Return to Selection List** to return to the Public Health Selection screen.

**Meaningful Use Objectives 1-8:** The following section includes 8 of the 9 Objectives. Some Objectives include multiple measures. As part of the Meaningful Use Attestation, Eligible Hospitals (EHs) are required to complete all 9 Objectives. Certain Objectives do provide Exclusions, Alternate Exclusions, or Alternate Measures. If an EH meets the criteria for the Exclusion or Alternate Exclusion, then the EH can claim that Exclusion during Attestation.

**Helpful Hints:**

1. The Meaningful Use Objectives, Required Public Health Objective, and the Clinical Quality Measures (CQMs) can be completed in any order.
2. For more details on each objective, select the **'CLICK HERE'** link at the top of each screen.
3. Objective results **DO NOT** round up. For example, a numerator of 199 and a denominator of 1000 is 19%. Results are **ONLY displayed in** whole numbers.
4. Objectives that require a result of greater than a given percentage (%) must be more than that percentage (%) to pass. For example, in a measure requiring a result of greater than 80%, a result of 80.1% will pass but a result of exactly 80% would not pass.
5. The checkmark means the section is completed but does not mean you passed or failed the objective.
6. You may review the completed objectives by selecting the **'EDIT'** button.
7. Evaluation of Meaningful Use Objectives is made after the application is electronically signed. You will receive a message if the objectives are not met. If any objectives are not met, you will have an opportunity to change and electronically sign again.

**Instructions:** Users may adequately answer each measure they intend to meet by correctly completing the numerator and denominator, answering yes or no to the objective, or choosing an exclusion if they meet the requirements for that exclusion. Use the data obtained from your EHR system for the attestation period. When completing your application you will be prompted to upload a copy of your supporting EHR Objectives into your application. Excel, Word and PDF format files, each file no greater than 10 Mega Bytes (MB) in size, can be uploaded into MAPIR.

<b>Name</b>	MAPIR Medical Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	9999999999
<b>Payment Year</b>	4	<b>Program Year</b>	2016

**Attestation Meaningful Use Objectives**

To edit information, select the **"EDIT"** button next to the objective that you would like to edit. All successfully submitted progress on entry of measures will be retained if your session is terminated.

When all objectives have been edited and you are satisfied with the entries, select the **"Return to Main"** button to access the main attestation topic list.

**Meaningful Use Objective List Table**

Objective Number	Objective	Measure	Entered	Select
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the eligible hospital or CAH's risk management process.		<input type="button" value="EDIT"/>
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an eligible hospital or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high priority health conditions. The eligible hospital or CAH has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.		<input type="button" value="EDIT"/>
Objective 3	Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 60 percent of medication orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of laboratory orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry. More than 30 percent of radiology orders created by the authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.		<input type="button" value="EDIT"/>

Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.		<a href="#">EDIT</a>
Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.		<a href="#">EDIT</a>
Objective 6	Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.		<a href="#">EDIT</a>
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	The eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).		<a href="#">EDIT</a>
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information. For an EHR reporting period in 2016, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her health information during the EHR reporting period.		<a href="#">EDIT</a>

**Objective 4 - Electronic Prescribing**

Click [HERE](#) to review CMS Guidelines for this measure.

*When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.*

**(\*) Red asterisk indicates a required field.**

**Objective:** Generate and transmit permissible discharge prescriptions electronically (eRx).

**Measure:** More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using Certified EHR Technology.

**\* PATIENT RECORDS:** Please select whether the data used to support the measure was extracted from ALL patient records or only from patient records maintained using Certified EHR Technology.

This data was extracted from ALL patient records not just those maintained using Certified EHR Technology.  
 This data was extracted only from patient records maintained using Certified EHR Technology.

**EXCLUSION:** Any eligible hospital or CAH that does not have an internal pharmacy that can accept electronic prescriptions and is not located within 10 miles of any pharmacy that accepts electronic prescriptions at the start of their EHR reporting period.

**\*Does this exclusion apply to you?**

Yes  No

**ALTERNATE EXCLUSION:** The eligible hospital or CAH may claim an exclusion for the eRx objective and measure if for an EHR reporting period in 2016 they were scheduled to demonstrate Stage 2 but did not intend to select the Stage 2 eRx objective for an EHR reporting period in 2016.

**\*Does this exclusion apply to you?**

Yes  No

If the exclusions do not apply to you, complete entries in the Numerator and Denominator.

**Numerator:** The number of prescriptions in the denominator generated, queried for a drug formulary, and transmitted electronically.  
**Denominator:** Number of new or changed permissible prescriptions written for drugs requiring a prescription in order to be dispensed for patients discharged during the EHR reporting period.

*Click [HERE](#) to review CMS Guidelines for this measure.*

*When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.*

**(\*) Red asterisk indicates a required field.**

Objective: The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.

Measure: The eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must (1) use Certified EHR Technology to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.

**Numerator:** The number of transitions of care and referrals in the denominator where a summary of care record was created using Certified EHR Technology and exchanged electronically.

**Denominator:** Number of transitions of care and referrals during the EHR reporting period for which the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) was the transferring or referring provider.

**(\*) Red asterisk indicates a required field.**

Objective: Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.

Measure: More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by Certified EHR Technology.

**Numerator:** Number of patients in the denominator who are subsequently provided patient-specific education resources identified by Certified EHR Technology.

**Denominator:** Number of unique patients admitted to the eligible hospital or CAH inpatient or emergency departments (POS 21 or 23) during the EHR reporting period.

**(\*) Red asterisk indicates a required field.**

Objective: Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.

**Measure 1:** More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download, and transmit to a third party their health information.

**Numerator 1:** The number of patients in the denominator who have access to view, download, and transmit their health information within 36 hours after the information is available to the eligible hospital or CAH.

**Denominator 1:** Number of unique patients discharged from an eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period.

\* Numerator 1:  \* Denominator 1:

**Measure 2 Exclusion:** Any hospital or CAH that is located in a county that does not have 50 percent or more of its housing units with 4Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period.

\*Does the exclusion apply to you? If 'Yes', do not complete Measure 2. If 'No', complete entries for Measure 2.

Yes  No

**Measure 2:** For an EHR reporting period in 2016, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads, or transmits to a third party his or her information during the EHR reporting period.

**Numerator 2:** The number of patients (or patient-authorized representative) in the denominator who view, download, or transmit to a third party their health information.

**Denominator 2:** Number of unique patients discharged from the inpatient or emergency department (POS 21 or 23) of the eligible hospital or CAH during the EHR reporting period.

**Meaningful Use Objective List Table**

Objective Number	Objective	Measure	Entered	Select
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the eligible hospital or CAH's risk management process.	Measure = Yes Date = 09/21/2015 Name and Title = test	<input type="button" value="EDIT"/>
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an eligible hospital or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high priority health conditions. The eligible hospital or CAH has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.		<input type="button" value="EDIT"/>

**Attestation Meaningful Use Objectives**

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (QMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed.

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

**Required Public Health Objective 9:** As part of the Meaningful Use Attestation, Eligible Hospitals are required to attest to three (3) Public Health Options. If you cannot successfully attest to any one (1) of the three (3) selected Options, then you must qualify for an Exclusion or Alternate Exclusion from the remaining Options to pass the Public Health Objective.

In the next section, you will select three (3) options for Attestation. There are multiple Exclusions for each Public Health Options. See the [Eligible Hospital Public Health Reporting specification sheet](#) for a complete list.

**EHs choosing Modified Stage 2:**

- Must attest to at least 3 Options from the Public Health Reporting Options 1-4.
- Option 3 (Specialized Registry) may be reported three times as Objective 9 Option 3A, Objective 9 Option 3B and Objective 9 Option 3C.
- If you cannot successfully attest to any Option then you must qualify for an exclusion for all Options to pass the Public Health Objective.
- May claim an alternate exclusion Measure 3A (Specialized Registry).

**Helpful Hints:**

1. For more details on each objective, select '**CLICK HERE**' link at the top of each screen.
2. You may review the completed objectives by selecting the '**EDIT**' button.
3. After completing the Public Health Objective, you will receive a checkmark indicating the section is completed but this does not mean you passed or failed the objective.
4. Evaluation of the Public Health Objective is made after the application is electronically signed. You will receive a message if the objective is not met. If the objective is not met, you will have an opportunity to change and electronically sign again.

**(\*) Red asterisk indicates a required field.**

**Objective:** The eligible hospital or CAH is in active engagement with an immunization registry or immunization information systems to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.

**Measure:** Option 1 - Immunization Registry Reporting: The eligible hospital or CAH is in active engagement with a public health agency to submit immunization data.

**\*Does this option apply to you?**  
 Yes  No

**Active Engagement Options:** If you have answered 'Yes' above, please select one of the options listed below.

Completed registration to submit data  
 Testing and validation  
 Production

**EXCLUSION:** If Option 1 is 'No', then ALL of the Exclusions listed below must be answered. You may only select 'Yes' for one exclusion. Any eligible hospital or CAH that meets one of the following criteria may be excluded from the objective.

Does not administer any immunizations to any of the populations for which data is collected by its jurisdiction's immunization registry or immunization information system during the EHR reporting period.  
 Yes  No

Operates in a jurisdiction for which no immunization registry or immunization information system is capable of accepting the specific standards required to meet the Certified EHR Technology definition at the start of the EHR reporting period.  
 Yes  No

Operates in a jurisdiction where no immunization registry or immunization information system has declared readiness to receive immunization data from the eligible hospital or CAH at the start of the EHR reporting period.  
 Yes  No

CMS72 v3-Antithrombotic Therapy By End of Hospital Day 2	Clinical Process/Effectiveness		<input type="button" value="EDIT"/>
CMS73 v3-Venous Thromboembolism Patients with Anticoagulation Overlap Therapy	Clinical Process/Effectiveness		<input type="button" value="EDIT"/>
CMS100 v3-Aspirin Prescribed at Discharge	Clinical Process/Effectiveness		<input type="button" value="EDIT"/>
CMS172 v4-Prophylactic Antibiotic Selection for Surgical Patients	Efficient Use of Healthcare Resources		<input type="button" value="EDIT"/>
CMS55 v3-Median Time from ED Arrival to ED Departure for Admitted ED Patients	Patient and Family Engagement		<input type="button" value="EDIT"/>
CMS110 v3-Venous Thromboembolism Discharge Instructions	Patient and Family Engagement		<input type="button" value="EDIT"/>
CMS114 v3-Incidence of Potentially-Preventable Venous Thromboembolism	Patient Safety		<input type="button" value="EDIT"/>
CMS171 v4-Prophylactic Antibiotic Received Within One Hour Prior to Surgical Incision	Patient Safety		<input type="button" value="EDIT"/>

The following is a list of the 29 Clinical Quality Measures available for you to attest to:

Measure Number	Clinical Quality Measure	Domain	Screen Example
CMS55 v3	Clinical Quality Measure 1	Patient and Family Engagement	<a href="#">Screen 1</a>
CMS111 v3	Clinical Quality Measure 2		<a href="#">Screen 1</a>
CMS107 v3	Clinical Quality Measure 8		<a href="#">Screen 3</a>
CMS110 v3	Clinical Quality Measure 14		<a href="#">Screen 5</a>
CMS26 v2	Clinical Quality Measure 26		<a href="#">Screen 5</a>
CMS104 v3	Clinical Quality Measure 3	Clinical Process/Effectiveness	<a href="#">Screen 2</a>
CMS71 v4	Clinical Quality Measure 4		<a href="#">Screen 2</a>
CMS91 v4	Clinical Quality Measure 5		<a href="#">Screen 3</a>
CMS72 v3	Clinical Quality Measure 6		<a href="#">Screen 2</a>
CMS105 v3	Clinical Quality Measure 7		<a href="#">Screen 2</a>
CMS73 v3	Clinical Quality Measure 12		<a href="#">Screen 3</a>
CMS109 v3	Clinical Quality Measure 13		<a href="#">Screen 3</a>
CMS100 v3	Clinical Quality Measure 16		<a href="#">Screen 2</a>
CMS113 v3	Clinical Quality Measure 17		<a href="#">Screen 3</a>
CMS60 v3	Clinical Quality Measure 18		<a href="#">Screen 2</a>
CMS53 v3	Clinical Quality Measure 19		<a href="#">Screen 3</a>
CMS30 v4	Clinical Quality Measure 20		<a href="#">Screen 2</a>
CMS9 v3	Clinical Quality Measure 27		<a href="#">Screen 3</a>
CMS31 v3	Clinical Quality Measure 29		<a href="#">Screen 3</a>
CMS102 v3	Clinical Quality Measure 9	Care Coordination	<a href="#">Screen 3</a>
CMS32 v4	Clinical Quality Measure 25		<a href="#">Screen 1</a>
CMS108 v3	Clinical Quality Measure 10	Patient Safety	<a href="#">Screen 3</a>
CMS190 v3	Clinical Quality Measure 11		<a href="#">Screen 2</a>
CMS114 v3	Clinical Quality Measure 15		<a href="#">Screen 3</a>
CMS171 v4	Clinical Quality Measure 22		<a href="#">Screen 4</a>
CMS178 v4	Clinical Quality Measure 24		<a href="#">Screen 3</a>

Measure Number	Clinical Quality Measure	Domain	Screen Example
CMS185 v3	Clinical Quality Measure 28		<a href="#">Screen 3</a>
CMS188 v4	Clinical Quality Measure 21	Efficient Use of Healthcare Resources	<a href="#">Screen 4</a>
CMS172 v4	Clinical Quality Measure 23		<a href="#">Screen 4</a>

There are 29 Meaningful Use Clinical Quality Measure screens. As you proceed through the Meaningful Use Clinical Quality Measure section of MAPIR, you will see five different screen layouts. Instructions for each measure are provided on the screen. For additional help with a specific Meaningful Use Clinical Quality Measure, click on the link provided above the blue instruction box.

Screen layout examples are shown below.

Click [HERE](#) to review CMS Guidelines for this measure.

When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

**(\*) Red asterisk indicates a required field.**

Responses are required for the clinical quality measure displayed on this page.

**Domain:** Patient Safety  
**Measure Number:** CMS171 v5.1.000  
**NQF Number:** 0527  
**Measure Title:** Prophylactic Antibiotic Received Within One Hour Prior to Surgical Incision  
**Measure Description:** Surgical patients with prophylactic antibiotics initiated within one hour prior to surgical incision. Patients who received vancomycin or a fluoroquinolone for prophylactic antibiotics should have the antibiotics initiated within two hours prior to surgical incision. Due to the longer infusion time required for vancomycin or a fluoroquinolone, it is acceptable to start these antibiotics within two hours prior to incision time.

**Numerator:** A positive whole number, including zero. Use the "Click HERE" above for a definition of the Numerator.  
**Denominator:** A positive whole number, including zero. Use the "Click HERE" above for a definition of the Denominator.

**Attestation Meaningful Use Objectives**

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed. ✓

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a ✓ is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
✓	Meaningful Use Objectives (1-8)	8/8	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">EDIT</div> <div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Clear All</div>
✓	Required Public Health Objective (9)	6/6	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">EDIT</div> <div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Clear All</div>
✓	Clinical Quality Measures	16/16	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">EDIT</div> <div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Clear All</div>

**Note:**  
When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

## Manual Clinical Quality Measures

This initial screen provides information about the Clinical Quality Measures.

### 2016 Modified Stage 2 with Alternates

<b>Name</b>	MAPIR HOSPITAL	<b>NPI</b>	2011062207
<b>CCN</b>	070098	<b>Hospital TIN</b>	[REDACTED]
<b>Payment Year</b>	3	<b>Program Year</b>	2016

MEANINGFUL USE CLINICAL QUALITY MEASURES (CQMs)

As part of the meaningful use attestation process, Eligible Hospitals are required to complete sixteen (16) CQMs from at least three (3) different domains. There are five (5) domains and twenty-nine (29) CQMs from which to choose. The domain of each CQM is shown in the title bar of each individual CQM.

*Please note, CQMs are listed by the CMS number then by domain name. You will not be able to proceed with your attestation without selecting a minimum of **sixteen (16) CQMs from three(3) different domains.***

### 2016 Modified Stage 2

**Attestation Meaningful Use Measures**

**Instructions:**  
 Select a minimum of 16 clinical quality measures by checking the box next to the measure you are attesting. The measures selected must be chosen from at least three different domains.  
 When all CQMs have been edited and you are satisfied with the entries, select the "Return to Main" button to access the main attestation topic list.  
*Please note: Clinical quality measures are sorted by Domain and then by CMS Measure Number.*

Responses are required for the clinical quality measure displayed on this page.

**Domain:** Patient Safety  
**Measure Number:** CMS171 v5.1.000  
**NQF Number:** 0527  
**Measure Title:** Prophylactic Antibiotic Received Within One Hour Prior to Surgical Incision  
**Measure Description:** Surgical patients with prophylactic antibiotics initiated within one hour prior to surgical incision. Patients who received vancomycin or a fluoroquinolone for prophylactic antibiotics should have the antibiotics initiated within two hours prior to surgical incision. Due to the longer infusion time required for vancomycin or a fluoroquinolone, it is acceptable to start these antibiotics within two hours prior to incision time.

**Attestation Meaningful Use Objectives**

Meaningful use measures are grouped into topics. Please complete all of the following topic areas: Meaningful Use Objectives (1-8), Required Public Health Objective (9), and Clinical Quality Measures (CQMs) options. The following icon will display to the left of the topic name when the minimum required entries are completed.

**Please Note:** Specific requirements apply to the Required Public Health Objective (9). You may be instructed to complete additional steps depending on exclusions taken on completed objectives even though a is displayed.

Available actions for a topic will be determined by current progress level. To start a topic, select the **Begin** button. To modify a topic where entries have been made, select the **EDIT** button for a topic to modify any previously entered information. Select **Previous** to return.

Completed?	Topics	Progress	Action
	Meaningful Use Objectives (1-8)	8/8	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">EDIT</div> <div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Clear All</div>
	Required Public Health Objective (9)	6/6	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">EDIT</div> <div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Clear All</div>
	Clinical Quality Measures	16/16	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">EDIT</div> <div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Clear All</div>

**Note:**  
When all topics are marked as completed, select the "Save & Continue" button to complete the attestation process.

**Attestation Meaningful Use Measures**

*The Meaningful Use Measures you have attested to are depicted below. Please review the current information to verify what you have entered is correct.*

Objective Number	Objective	Entered
Objective 1	Protect electronic health information (ePHI) created or maintained by the Certified EHR Technology (CEHRT) through the implementation of appropriate technical capabilities.	Measure = No
Objective 2	Use clinical decision support to improve performance on high priority health conditions.	Measure 1 = No Measure 2 = No
Objective 3	Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	Patient Records = Only EHR  Measure 1 Numerator 1 = 500 Denominator 1 = 1000 Percentage = 50%  Measure 2 Numerator 2 = 500 Denominator 2 = 1000 Percentage = 50%  Measure 3 Numerator 3 = 500 Denominator 3 = 1000 Percentage = 50%
Objective 4	Generate and transmit permissible discharge prescriptions electronically (eRx).	Patient Records = All  Exclusion = No Alternate Exclusion = No Numerator = 500 Denominator = 1000 Percentage = 50%
Objective 5	The eligible hospital or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary of care record for each transition of care or referral.	Alternate Exclusion = No Numerator = 500 Denominator = 1000 Percentage = 50%
Objective 6	Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	Alternate Exclusion = Excluded
Objective 7	The eligible hospital or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.	Alternate Exclusion = Excluded
Objective 8	Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.	Measure 1 Numerator 1 = 500 Denominator 1 = 1000 Percentage = 50%  Measure 2 Measure 2 Exclusion = Excluded

This is screen 2 of 4 of the Meaningful Use Measures Summary.

Required Public Health Objective Review		
Objective Number	Objective	Entered
Objective 9 Option 1	The eligible hospital or CAH is in active engagement with an immunization registry or immunization information systems to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Measure Option 1 = No Exclusion 1 = Excluded Exclusion 2 = No Exclusion 3 = No Exclusion 4 = No
Objective 9 Option 2	The eligible hospital or CAH is in active engagement with a syndromic surveillance registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Measure Option 2 = No Exclusion 1 = No Exclusion 2 = No Exclusion 3 = No Exclusion 4 = No
Objective 9 Option 3A	The eligible hospital or CAH is in active engagement with a specialized registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Measure Option 3A = Yes Specialized Registry = TEST Active Engagement Option = Production
Objective 9 Option 3B	The eligible hospital or CAH is in active engagement with a specialized registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Specialized Registry = TEST Active Engagement Option = Testing and validation
Objective 9 Option 3C	The eligible hospital or CAH is in active engagement with a specialized registry to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Specialized Registry = TEST Active Engagement Option = Completed registration to submit data
Objective 9 Option 4	The eligible hospital or CAH is in active engagement with a public health agency to submit electronic public health data from Certified EHR Technology except where prohibited and in accordance with applicable law and practice.	Measure Option 4 = No Exclusion 1 = Excluded Exclusion 2 = No Exclusion 3 = No Exclusion 4 = No

### Attestation Phase (Part 3 of 3)

Part 3 of 3 of the Attestation Phase contains questions regarding the average length of stay for your facility and confirmation of the address to which the incentive payment will be sent.

Click **Yes** to confirm you are either an Acute Care Hospital with an average length of stay of 25 days or fewer, or a Children's Hospital.

Click the **Payment Address** from the list below to be used for your Incentive Payment.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

<b>Name</b>	MAPIR Medical Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	999999999

**Attestation Phase (Part 3 of 3)**

Eligible Hospitals may be subject to the Centers for Medicare & Medicaid Services process for audits and appeals of Meaningful Use attestations. This includes Eligible Hospitals applying for a Medicaid only EHR incentive payment.

Please answer the following question.

When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back.  
Click **Reset** to restore this panel to the starting point.

(\*) Red asterisk indicates a required field.

---

\* Please confirm that you are either an Acute Care Hospital with an average length of stay of 25 days or fewer, or a Children's Hospital.  Yes  No

**NOTE: Definition of an acute care hospital for purpose of the Medicaid EHR Incentive Payment Program is a hospital with an average patient length of stay of 25 days or fewer, and with a CCN that falls in the range of 0001-0879 (Short-term Hospitals) or 1300-1399 (Critical Access Hospitals).**

---

Please select one payment address from the list provided below to be used for your Incentive Payment, if you are approved for payment. If you do not see a valid payment address, please contact State Medicaid Program.

*Payment Address <i>(Must Select One)</i>	Provider ID	Location Name	Address	Additional Information
	9999999999	MAPIR Medical Hospital	123 Medical Way Echo Bay, FL 32212-2858	E100 EH Payee

You have now completed the **Attestation** section of the application.

You may revisit this section any time to make corrections until such time as you actually **Submit** the application.

The **Submit** section of the application is now available.

Before submitting the application, please review the information you have provided in this section, and all previous sections.

## Step 6 – Review Application

The Review section allows you to review all information you entered into your application. If you find errors, you can click the associated tab and proceed to correct the information. When you have corrected the information you can click the **Review** tab to return to this section. From this screen you can print a printer-friendly copy of your application for review. Please review all information carefully before proceeding to the Submit section. Once your application is submitted you will not have the opportunity to change it.

Click **Print** to generate a printer-friendly version of this information.

When you have finished reviewing all the information, click the **Submit** tab to proceed.

This is screen 1 of 3 of the Review tab display.

**Note**  
 If you are in Program Year 2014, the CEHRT ID Information section on the following screen will also display the Meaningful Use Reporting Option and Reason for Delay (if applicable).

## Step 7 – Submit Your Application

In this section you will be able to review the information that you submitted in MAPIR and upload documentation supporting your attestation.

MAPIR displays the information and allows you to print the information entered. Please review the information you've provided for accuracy and completeness. This will be your opportunity to make changes prior to final submission.

Review and Check Errors – MAPIR will check your application for errors. If errors are present you will have the opportunity to go back to the tab where the error occurred and correct it. If you do not want to correct the errors you can still submit your application, however, the errors may affect the processing of your application.

The following documents are to be uploaded into MAPIR (Must be in a .pdf, .xls, .xlsx, .doc, or .docx format and no greater than 10 MB)

- Invoice/Purchase Order – Document indicating that provider has paid for the EHR system within the program year; it should indicate an agreement between provider/practice and EHR vendor and total purchase price (redacted is acceptable)
- Contract/User agreement – which must include company name and name of specific product/services purchased
- Cart Page – E-mail or screenshot

**Children’s Hospital Requirements (Should be submitted in addition to items listed above):**

- Certified EHR technology MU reports (which must include numerator, denominators, exclusions and percentages for each of the required objectives and CQMs)
- Security Risk Analysis (SRA) Checklist completed within Program Year being attested to
- Electronic Laboratory Reporting (Public Health registration confirmation)
- Public Health meaningful use measure exclusion letter, if applicable (there are different exclusion letters for PY2015 and PY2016)

The initial **Submit** screen contains information about this section. Click **Begin** to continue to the submission process.

<b>Name</b>	THE HOSPITAL OF CENTRAL CONNECTICUT	<b>NPI</b>	1053477075
<b>CCN</b>	070035	<b>Hospital TIN</b>	060646768
<b>Payment Year</b>	3	<b>Program Year</b>	2016

In this section you will be able to review the information that you submitted in MAPIR and upload documentation supporting your attestation.

MAPIR displays the information and allows you to print the information entered. **Please review the information you've provided for accuracy and completeness.** This will be your opportunity to make changes prior to final submission.

Review and Check Errors - MAPIR will check your application for errors. If errors are present you will have the opportunity to go back to the tab where the error occurred and correct it. If you do not want to correct the errors you can still submit your application, however, the errors may affect the processing of your application.

File Upload - You will be required to upload documentation supporting your attestation. Files must be in a .pdf, .xls, .xlsx, .doc, or .docx format and no greater than 10 MB. The following is a list of documentation requirements:

- Invoice/Purchase Order - Document indicating that provider has paid for the EHR system within the program year; it should indicate an agreement between provider/practice and EHR vendor and total purchase price (redacted is acceptable)
- Contract/User agreement - which must include company name and name of specific product/services purchased
- Cart Page - Email or screenshot

**Children's Hospital Requirements (should be submitted in addition to the items above):**

- Certified EHR technology MU reports (which must include numerator, denominators, exclusions and percentages for each of the required objectives and CQMs)
- Security Risk Analysis (SRA) Checklist completed within the year being attested to
- Electronic Laboratory Reporting (Public Health registration confirmation)
- Public Health meaningful use measure exclusion letter, if applicable (there are different exclusion letters for PY2015 and PY2016)

This screen lists the current status of your application and any error messages identified by the system.

You can correct these errors or leave them as is. You can submit this application with errors; however, errors may impact your eligibility and incentive payment amount.

To correct errors:

Click **Review** to be taken to the section in error and correct the information. To return to this section at any time click the **Submit** tab.

Click **Save & Continue** to continue with the application submission.

<b>Name</b>	MAPIR Memorial Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	999999	<b>Hospital TIN</b>	999999999
<b>Payment Year</b>	1	<b>Program Year</b>	2012

*Incomplete*

The MAPIR "Check Errors" panel displays errors that have occurred during the application process.

The following errors have been identified while reviewing your application. For each error listed, click **Review** to be directed to the section of the application that resulted in the error. You will have the ability to correct your answer in that section. Once you click on the **Save & Continue** button on that page, you may then select the **Submit** tab to continue with your review.

Please note that you may still submit the application with errors, but the errors may impact the approval determination.

**You must participate in the Medicaid incentive program in order to qualify.**

**Review**

**Save & Continue**

To upload files, click **Browse** to navigate to the file you wish to upload.

*Note: Excel, Word and Portable Data Format (PDF) files, each up to 10 megabytes (MB) in size are acceptable documentation to upload.*

*When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.*

---

To upload a file, type the full path or click the **Browse...** button.

Files must be in a .pdf, .xls, .xlsx, .doc, or .docx format and no greater than 5 MB in size.

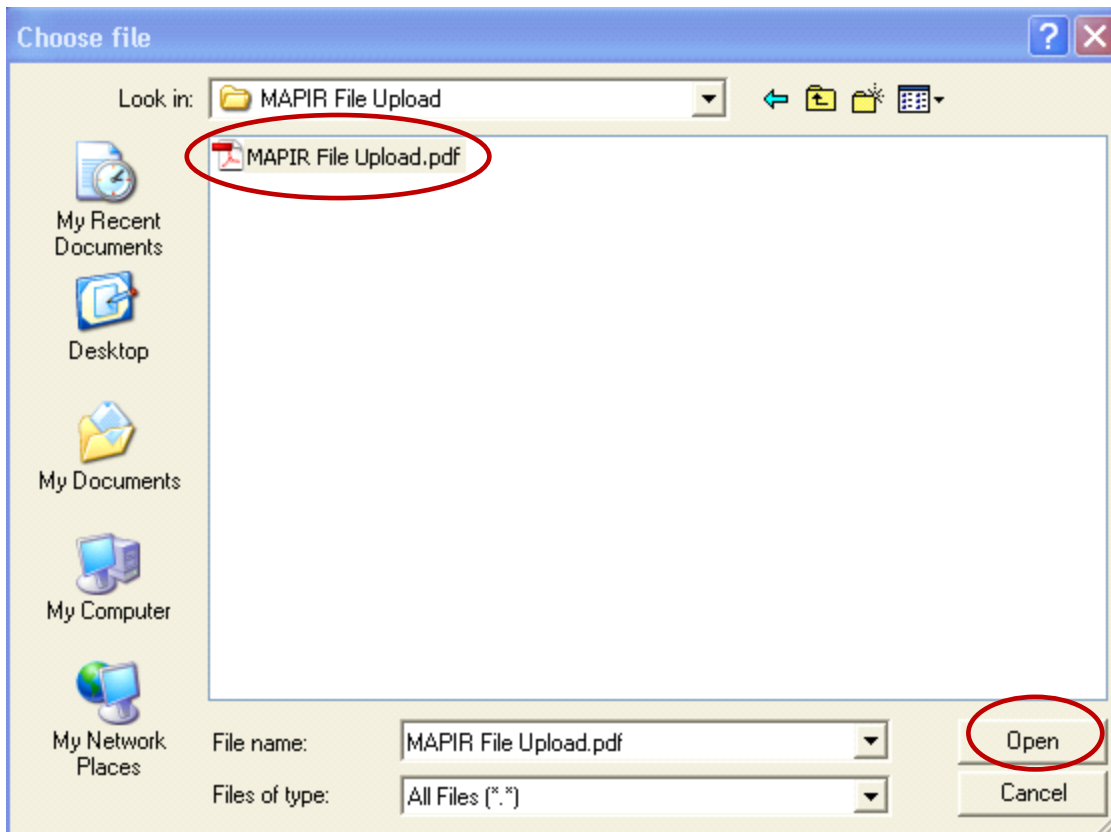

File name must be less than or equal to **100 characters**.

File Location:  Browse...

---

The **Choose file** dialog box will display.

Navigate to the file you want to upload and select **Open**.

Check the file name in the file name box.

Click **Upload File** to begin the file upload process.

When ready click the **Save & Continue** button to review your selection, or click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

---

To upload a file, type the full path or click the **Browse...** button.

Files must be in a .pdf, .xls, .xlsx, .doc, or .docx format and no greater than 5 MB in size.

File name must be less than or equal to **100 characters**.

File Location:

**Upload File**

---

Note the *“File has been successfully uploaded.”* message.

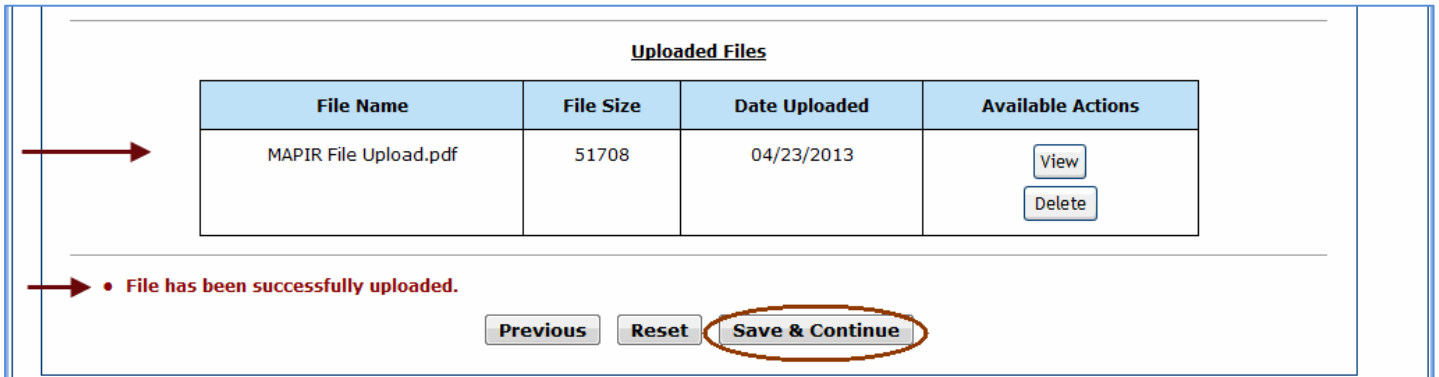

Review the uploaded file list in the Uploaded Files box.

If you have more than one file to upload, repeat the steps to select and upload a file as many times as necessary.

All of the files you uploaded will be listed in the **Uploaded Files** section of the screen. The Upload Files screen may also display files that were uploaded by an Administrative User and made available for you to view.

To delete an uploaded file click the **Delete** button in the Available Actions column. If a file is uploaded by an Administrative User, you will not have the option to delete the file.

Click **Save & Continue** to review your selection, or click **Previous** to go back. Click **Reset** to restore the panel to the starting point.

This screen depicts the Preparer signature screen.

Click the check box to indicate you have reviewed all information.

Enter your **Preparer Name** and **Preparer Relationship**.

Click **Sign Electronically** to proceed.

Click **Previous** to go back. Click **Reset** to restore this panel to the starting point.

<b>Name</b>	MAPIR Memorial Hospital	<b>NPI</b>	999999999

## Post Submission Activities

This section contains information about post application submission activities. At any time you can check the status of your application by logging into the Connecticut Medicaid portal. When you have successfully completed the application submission process you will receive an email confirming your submission has been received. You may also receive email updates as your application is processed.

When you log in to MAPIR after submitting your application you will see the Medicaid EHR Incentive Program Participation Dashboard.

Notice that the Status of your application is Submitted. You can only view an application in a Submitted status. The next payment year application will be enabled when you become eligible to apply. For status information, please see the Status Definition table in the Post Submission Activities section of this manual.

### Medicaid EHR Incentive Program Participation Dashboard

The following table lists some of the statuses your application may go through.

Status	Definition
Not Registered at R&A	MAPIR has not received a matching registration from both the R&A and the state MMIS.
Incomplete	The application is in a working status but has not been submitted and may still be updated by the provider.
Submitted	The application has been submitted. The application is locked to prevent editing and no further changes can be made.
Payment Approved	A determination has been made that the application has been approved for payment.
Payment Disbursed	The financial payment data has been received by MAPIR and will appear on your remittance advice.
Partial Recoupment Received	An adjustment has been requested and the total amount has not been recouped.
Partial Remittance Received	An adjustment has been processed and a partial recoupment has been made and will appear on your remittance advice.
Aborted	When in this status, all progress has been eliminated for the incentive application and the application can no longer be modified or submitted.
Adjustment Initiated	An adjustment has been lodged with the proper state authority by the provider.
Adjustment Approved	The adjustment has been approved.
Adjustment Canceled	The adjustment has been canceled.
Denied	A determination has been made that the provider does not qualify for an incentive payment based on one or more of the eligibility rules.
Completed	The application has run a full standard process and completed successfully with a payment to the provider.
Cancelled	An application has been set to “Cancelled” status only when R&A communicates a registration cancellation to MAPIR. MAPIR cancels both the registration and any associated application.
Future	This is a status that will be displayed against any application to indicate the number of future applications that the provider can apply for within the EHR Incentive Program.
Not Eligible	This is a status that will be displayed against any application whenever the provider has exceeded the limits of the program timeframe.
Not Started	This is a status that will be displayed against any application whenever the provider has not started an application but MAPIR received an R&A registration and has been matched to an MMIS provider.
Expired	An application is set to an “Expired” status when an application in an “Incomplete” status has not been submitted within the allowable grace period for a program year or when an authorized admin user changes an application to this status after the end of the grace period. Once an application is in an Expired status, the status cannot be changed and it is only viewable to the provider.

Welcome to Connecticut’s Medical Assistance Provider Incentive Repository (MAPIR).

A few key points to assist you in navigating MAPIR as you complete the registration process.

- Your MAPIR user session ends if there is no user activity longer than 60 minutes. You will receive timeout warnings.
- Please note that whoever begins the MAPIR application must be the same person who completes the application.
- When a MAPIR electronic tab is completed a **green** check mark will appear in the corner of the tab.
- You can go back in the application tabs to review information content but **not forward**.

**Name:** MAPIR HOSPITAL

**Applicant NPI:** 2011062207

**Status:** Incomplete Continue

Click [here](#) if you would like to eliminate all information saved to date, and start over from the beginning.

---

**Navigation Keys within the system:**

- Save and Continue:** At the bottom of each screen, it is important that you utilize the Save & Continue button. This allows you to come back to your records after leaving a MAPIR session in the event you are unable to complete the entire registration at one time.
- Previous:** Allows you to move to the previous screen
- Reset:** Allows you to reset the values within the screen you are currently on.

Note: You will be able to review and edit all entered information before submitting.

This screen asks you to confirm your selection to start the application over and delete all information saved to date. This process can only be done prior to submitting your application. Once your application is submitted, you will not be able to start over.

Click **Confirm** to Start Over and Delete All Progress.

<b>Name</b>	MAPIR Memorial Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	990001	<b>Hospital TIN</b>	9999999999
<b>Payment Year</b>	1	<b>Program Year</b>	2012

---

**Start Over and Delete All Progress**

To submit your request to delete all information saved to date, select **Confirm**. Select **Cancel** to return to the previous screen.

---

**Important:** By electing to start over, you are opting to **permanently** erase all data previously saved for your application.

---

If you clicked **Confirm** you will receive the following confirmation message: "To **continue** click **OK**."

<b>Name</b>	MAPIR Memorial Hospital	<b>NPI</b>	9999999999
<b>CCN</b>	990001	<b>Hospital TIN</b>	9999999999
<b>Payment Year</b>	1	<b>Program Year</b>	2012

---

**Start Over and Delete All Progress**

---

**Your application has been reset and all saved data has been eliminated.**  
 Please select "OK" to start from the beginning. You will be redirected to the Get Started tab.

---

**Contact Us** – Clicking on the Contact Us link in the upper right corner of most screens within MAPIR will display the following state Medicaid program contact information.
