## INPATIENT CLAIMS BILLING INSTRUCTIONS

### INTRODUCTION

Now that you have installed and become familiar with the functionality of the DXC Technology PROVIDER ELECTRONIC SOLUTIONS software, it's time to begin claims data entry.

The claim entry screen consists of eight sections: Five Header, One Service, Other Insurance and Crossover screens.

The following instructions detail requirements and general information for each section of your claim.

In the following sections, each data entry field is defined with the appropriate requirements. Edits have been built into the software to assist you in correct data entry, however, READ THESE SECTIONS CAREFULLY. Payment or denial of your claims depends on the data you supply to DXC Technology.

Please reference your billing manual for detailed Connecticut Medical Assistance Program billing requirements unique to your provider type.

**Important Update: This software will not be supported after October 1, 2015. Current PES users are encouraged to transition to an alternative method of claim submission by October 1, 2015 to avoid a disruption in electronic claims processing.**

## INPATIENT CLAIMS BILLING INSTRUCTIONS

Provider Electronic Solutions contains reference lists of information that you commonly use when you enter and edit screens. For example, you can enter lists of common diagnosis codes, procedure codes, type of bill and admission source and type. All of the lists are available from the data entry section as a drop-down list where you can select previously entered data to speed the data entry process and help ensure accuracy of the form.

There are several lists that you are required to complete prior to entering a transaction. Because this software uses the HIPAA-compliant transaction format, there is certain information, which is required for each transaction. To assist you in making sure that all required information is included and to save time entering your information, some of the lists are required. These lists are:

- Client
- Billing Provider
- Other Provider
- Taxonomy
- Policy Holder

If these lists are not completed prior to keying your transaction, the list will open in the transaction form.

Some of the lists contain preloaded information that is available for auto-plugging as soon as you install Provider Electronic Solutions. Other lists require you to enter the information you will use for auto-plugging. You should enter your data in these lists soon after you set up Provider Electronic Solutions to take advantage of the auto-plug feature. To create or edit a list, select List from the Main Menu and then select the appropriate item.

### **Working with Lists**

From the Lists option on the menu bar, select the list you want to work with.

Perform one of the following:

- To add a new entry, select Add.
- To edit an existing entry, select the entry and then enter your changes.
- The command buttons for Delete, Undo All, Find, Print, and Close work as titled.

Note: The Select command button is not visible on the List window unless it has been invoked by double-clicking an auto-plug field from a claim screen. Once a List entry has been either added or edited, the Select button **must** be clicked in order for the data to populate the claim screen with the selected List entry.

### CLIENT SCREEN

The screenshot shows a software window titled "Client" with a blue header and a close button in the top right. The form contains the following fields:

- Client ID: [text box]
- Account #: [text box]
- Last Name: [text box]
- Client DOB: [text box with value 00/00/0000]
- ID Qualifier: [dropdown menu with value MI]
- Client SSN: [text box with value . .]
- First Name: [text box]
- Gender: [dropdown menu]
- Issue Date: [text box with value 00/00/0000]
- MI: [checkbox]
- Subscriber Address section with fields for Line 1, Line 2, City, State, and Zip.

Below the form is a table with the following data:

Client ID	Last Name	First Name
111111111	JONES	JANE

## INPATIENT CLAIMS BILLING INSTRUCTIONS

### CLAIM ENTRY INSTRUCTIONS

Use the following instructions to complete the claim screens. When data entry is complete, click **SAVE**. The saved claim will appear in the list below the data entry screen. If the claim data hits edits, a message window will appear with error messages. Click **SELECT** to move to the highlighted error and correct the data. Once all error messages have been resolved, you can save the claim.

Newly saved claims are in Status R (Ready). Status R claims can be edited and saved multiple times prior to submission. Be sure to click **ADD** before beginning to enter the data for each new claim.

Note: The Select command button is not visible on the List window unless it has been invoked by double-clicking an auto-plug field from a claim screen. Once a List entry has been either added or edited, the Select button *must* be clicked in order for the data to populate the claim screen with the selected List entry.
